## Beta Psi Installed

### Quebec Fourth Canadian Province to Win a Kappa Alpha Theta Charter

#### Welcome

BACK in the days when I was in college, Kappa Alpha Theta was carrying out its extension policy by granting charters to chapters largely in the West. We in District IV, at that time, earnestly wished for some new chapters of our own, and the desire has never lessened. When one realizes that our college chapters are among the first seventeen in the list of extant chapters and that Chi, our baby is forty-two years old, although Sigma, founded in 1887, was lost to us a while and then reestablished in 1905, it is easily understood what rejoicing there was when we learned that Beta Psi was being colonized at McGill university in Montreal. The installation was, therefore, a great event for us all and those who were fortunate and privileged to attend were delighted with their experiences. With initiation, installation, banquet, the tea and model chapter meeting, we welcomed ten charming young women into Kappa Alpha Theta. To know them is to love them and we greet them heartily as sisters. Under the guidance of Mrs Kircher, our Grand alumnae secretary, who lives in Montreal, and the rather new but thriving Montreal club, and with Lambda less than one hundred miles away, Beta Psi cannot help but thrive and prosper and we wish for it a glorious future.

#### Program

Late Saturday afternoon, February 27, 1932, a group of Thetas from different chap-

ters gathered to initiate ten new members into Kappa Alpha Theta. What a beautiful ceremony it was, with Mrs Banta and Mrs Kircher presiding, will be known only to those who were actually present. It was a great thrill to add ten such charming girls to our fraternity with the realization that they will do their best to uphold the new ideals placed before them—the ideals of Kappa Alpha Theta.

After the initiation we had installation, which was the real adding of Beta Psi as a chapter of Theta.

From installation we all went to banquet in a private dining room of the Mount Royal hotel. There were about one hundred fifty Thetas there, with college and alumnae members from many different chapters. We had a wonderful dinner with many toasts and songs.

Sunday morning some of the guests speeded on their way, others did some "sight-seeing," while Beta Psi had its first chapter meeting and conferences.

As a fitting close to a wonderful weekend a Panhellenic tea was given at the Theta apartment with our new sisters as hostesses. There were representatives from all the women's groups at McGill university, and we had a chance to become acquainted with other girls of the Panhellenic world.

And so, during the week-end of February 27, our sixty-second chapter has been added, and Beta Psi is now putting more "inter international" of Kappa Alpha Theta.

### Beta Psi Personality

#### *A Canadian Viewpoint*

O ye lords of ladies intellectual,  
Come tell us truly, have they not  
henpeck'd you all?

The hardships of the colonized must have been bitter indeed, if, as Helen O'Reilly of Toronto alumnæ chapter said as she proposed the toast to McGill university at the installation banquet of Beta Psi, the colonizers both "hen-pecked them all" and, to pervert Byron's chaste phrase, "hand-picked them all." But Beta Psi showed every indication not only of the tender care with which the latter had been accomplished, but of every ability to withstand any too assiduous admonition: it gave the impression of entering Kappa Alpha Theta not unfledged and unorganized, but mature and united.

McGill Thetas, as individuals and as a group, have character and they have personality. One of them wears a monocle and another is an artist, but Beta Psi does not consist of ten co-ed artists wearing monocles. It does consist of ten individuals alike only in their congeniality and in a poise and humor which promise capability for what has been defined as the essence of civilization: the capacity for cooperation. Moreover, it is led by Marguerite Bieler, a president whose unique charm and dignity can but add prestige to Kappa Alpha Theta.

Sigma is particularly delighted with the installation of Beta Psi, not only because it brings a Canadian chapter within a negligible three hundred miles, but because it promises to maintain and extend Sigma's own tradition—individuality, the exclusion of any chapter type, above all the search for the tempered intelligence worthy of a university of high standing and distinction. This aim could receive no better formulation than in the reply of Rose Stuart to the toast to McGill—her assertion of the identification of Beta Psi's interest and purpose with the highest ideals of McGill university in its achievement and effort—an assertion made in words of a clarity and dignity which only direct

quotation could reproduce. Kappa Alpha Theta is fittingly represented at McGill.

HASEL HAMMOND, *Sigma*

#### *An American Viewpoint*

Beta Psi has brought to Theta ten new international sisters. We of Lambda, who have met these new sisters, are only too glad to welcome them into our midst. We like them, every one, and we know that with such spirit and enthusiasm as was shown at the initiation banquet, Theta will hold its own at McGill university. We know that in their hands, the ideals of Kappa Alpha Theta will be guarded loyally.

Thetas everywhere, we just must tell you what a wonderful group these new sisters are. "Oh yes, rather!"

BETTY EGGLESTON, *Lambda*

### The Future of Beta Psi

Arriving in Montreal just before initiation, I did not see the pledges until they came to take their final vows. As I looked into each face, the future of the McGill chapter was perfectly evident to me.

True, the group is small, but each girl will tell you that "there must be no discord!"—and she means it! The present chapter contains a variety of types with such a diversity of interests that its members cannot help but be refreshing to one another—as well as to those outside who come in contact with them.

The colonization itself has been a splendid piece of work. Montreal and Toronto Thetas have veritably waved a magic wand as far as the eye can see—but to those of us who have worked throughout such a project the waving of this wand is not a light, fairylike gesture! We also know that the pledges themselves have had a big part in the success of the present Beta Psi. We know that the interest and zeal which they have displayed thus far will make them carry on throughout the years.

The crowning glory of the installation was the banquet held at the Mount Royal hotel. There, Vermont, Syracuse, Toronto,

and Montreal were as one. The spirit was indescribable! There was the dignity of the lighting of the candles for our Founders, the brilliance of the toasts, the fun of listening to and participating in the songs and yells of the various universities, and the endless snake dance after the toast to the fraternity.

The future of McGill? The mere consideration of it brings a warmth of assurance and a real happiness in the addition of our fourth Canadian chapter.

MARGARET K. BANTA

### McGill as a Fraternity Field

The main gate of McGill university faces the broad, interesting, old Sherbrooke street, which extends almost the length of the city of Montreal. To the east lies the French section, to the west the English section, while within two blocks to the south the shopping district is located. The north end of the cam-

pus climbs the abrupt slope of Mount Royal.

The mountain is loveliest as a background for the many grey-stone university buildings in the brilliant autumn. Beautiful old trees on the campus add distinction and charm to the winding paths and drives.

Women's fraternities are recent at McGill. Alpha Gamma Delta, the first, colonized, in the spring of 1930. Kappa Kappa Gamma and Delta Gamma gave charters to local societies in the winter of 1931. Gamma Phi Beta colonized last spring, Kappa Alpha Theta began colonization in the fall of 1931.

McGill university attracts a splendid type of student. A century of high scholarship standard has brought world fame and many foreign students to its campus. While McGill is most widely known for its schools of medicine and engineering it can boast one of the finest staffs of professors of any university.

## The Panhellenic Reserves Minimum Rate Rooms for Younger Fraternity Members

The Panhellenic, the fraternity woman's hotel in New York, is reserving, beginning March 1, two floors or their equivalent, for young fraternity women who have been out of college no longer than two years. These rooms will all be at the minimum rate of \$10.00 for a single room and \$9.00 per person for a double room. The purpose is to give the young woman who is taking extra educational courses in New York, or who is just starting her business career, an opportunity to live in the proper environment at

a low cost of living for New York City.

Hitherto, The Panhellenic has maintained a few \$10.00 rooms, but these have been so much in demand that many fraternity women who were much in need of them were not able to obtain them. By this new plan, the Panhellenic is making provision for about fifty fraternity women at the minimum rates. The rooms will be held for fraternity women, only. At the expiration of the two year limit, rooms will be provided at the minimum rate then available in the house.

A GOOD friend of Theta, a man of great distinction in his profession, George Taylor Plowman, etcher, the husband of Maude Bell Plowman, known and loved by many

Thetas, died in Cambridge, Massachusetts, March 26. Theta friends extend sympathy to Mrs Plowman.

## "The Old Order Changeth"

From the standpoint of curiosity, if not from that of psychology, the story of the selection of fraternity membership from 1776 to the present day would certainly offer an appeal. Fraternities have gradually come from a period of great simplicity and deep secrecy to a time of considerable complexity, marked competitive pressure, and ambiguous emphasis. As times have changed so have our "systems" but there still remains unaltered the ideal that should motivate all—that fraternity membership be chosen on the basis of congeniality and friendship.

To help and not hinder those interested in fraternity membership is the purpose of the rushing contract, strictly speaking. The open rushing program which provides for honest and sincere discussion of one's own fraternity and which likewise gives the interested rushee a chance to find out the really important facts about an organization or chapter is an excellent premise. If the orientation week of the college comes before rushing, a knowledge of the Greek world with its obligations and opportunities as they pertain to the particular campus could be included in the administration's plan under the auspices of the Panhellenic and Interfraternity councils. The all-Panhellenic initial tea, or the initial tea which every sorority holds on the opening day of rushing, to which all rushees are invited gives the observing girl a picture of the whole.

After introducing rushing with all groups as hostesses simultaneously to all girls, the days may be divided in various ways. The fundamental point is that the days be planned in a sane manner without overtaxing either rushee or sorority members. It can be done! On a medium-sized campus in the east, the fraternities are permitted an hour and a half in the afternoon and an hour and a half in the evening with prospective members. The houses of residence are assigned to each group for certain days. After each fraternity has made the round of residences or "wings of the dormitories" as prescribed, three days of informal rushing are permitted with the same definite

hours set aside. At no time during these days may a group spend any money on rushing! On the final evening of the rushing period each fraternity may entertain at dinner those rushees it may desire. After a brief silence period bids are sent. And all the time the regular college work and activities have been going on! On this campus the time of rushing is spent in cultivating friendships, discovering common interests, testing congeniality!

For the large universities, state and otherwise, a few more "mechanics" may be included. The little pamphlet called "Sororities and you" of Northwestern University and various printed statements and leaflets of other institutions are very helpful to the confused freshman. The system of the University of Illinois where the Dean of Women is accessible to any freshman during rushing for a heart to heart talk and where the Panhellenic meets every morning at nine o'clock is worth much consideration. The full time services of a secretary during August and the rushing period as used by the University of Washington Panhellenic helps solve many problems. The plan of one of the very large universities in the men's rushing might well be adopted by the women on the campuses where the number who accept all rushing entertainment and privilege with no intention of joining is growing: namely, a certain sum of money must be registered in the Dean's office on a stipulated date by each person expecting or desiring to go through the rushing season. This is proof of their good faith, and financial ability to join a group!

Few rules make for better rushing, more confidence, and more honor. As Dean Leonard urged at the National Panhellenic congress, "Put your rushing rules in your hearts instead of on paper!" The secret to any successful rushing no matter the plan or time or place is the honor of each participant—her loyalty to her fraternity's honor, her consecration to its ideals, and her belief in the "sanctity of obligations."

### Honors Work at Swarthmore

READING for honors was introduced at Swarthmore in 1927. It is not a radical method of education, defying all tried practices, but a superior system of catering to the individual ability of the most able students. In regular class work the average student is the pace maker and holds back the more gifted individuals. At Swarthmore, people who are bored and retarded by routine class work, are given the opportunity to demonstrate their ability in a more stimulating manner by reading for honors. The strongest impression one receives from a survey of honors work, is its extreme flexibility and its wide adaptability to a variety of needs and purposes as contrasted to the rigidity of most of the present college curricula.

A student may elect to take honors work as a junior, but during his freshman and sophomore years, he must have completed the prerequisite subjects. These usually include a reading knowledge of two languages and a preliminary knowledge of the field in which he expects to honor. As instructors are anxious to have scholars read original texts, a knowledge of French and German is advocated strongly. The final selection of those applying to read for honors rests with the professors who attempt to choose students who have shown the greatest initiative and ability in their own line.

After selecting a major subject the honor student has three other fields that he must correlate with his work. If his major is English, he may study subjects in modern history, philosophy and fine arts; if majoring in social sciences, he will study history, philosophy, political science and economics in vari-

ous combinations of three subjects each. The group usually meets twice a week in a seminar where papers written by individual students are read and discussed. Each paper is a document carefully prepared that the student has composed with only a suggestion from the professor as to bibliography. An honor student does not study from text books but from classics and original documents as much as possible, and he is urged to give his own opinions first before consulting commentaries. These meetings of the students and professors are in informal rooms or professor's homes where the discussions are free and the attitude of the instructor, not that of the all powerful diety but of an unobtrusive yet ever present guide.

Honor students strive to unify the three branches chosen and interrelate them. The final examinations given at the conclusion of this two year study period make correlation of subject matter necessary. The examinations, written and oral, are entirely in the hands of outside examiners, called to Swarthmore from various universities. Examinations are not unusually specific but planned to estimate the power of the individual to absorb what he has studied and apply what he has learned.

Final grades of highest honors, high honors and honors are awarded by the visiting instructors, while those who have not been successful must take regular class examinations in their subject to secure their degrees. It is customary however, for professors to advise a return to classwork, if they feel a student is not adapted to the honors régime.

Students who have graduated with honors and gone into graduate work admit that their preparation at Swarthmore has been of the greatest advantage in teaching them how to study independently. Theses they have written, have taught them to crystalize their ideas and to sense the interdependence of subjects studied. Other graduates have been equally frank in their criticism of the honor system

as it is at present. The severity and importance of the final examinations have most often been condemned. The value of the honor system to students of Swarthmore, is the fact that it is flexible and efforts to make the system of even greater educational value are continuous.

### The Chicago Plan

The University of Chicago's much talked about "New college plan" attempts to substitute a definite level of educational achievement for the old traditional time serving course credit requirements.

Under this plan, adopted in the fall of 1930, the program of work is divided administratively into five divisions: the college division, the humanities division, the social science division, the physical science division, the biological science division. In addition there are several professional schools, such as law, medicine, etc.

Students are admitted at Chicago upon the presentation of fifteen units of credit from an accredited high or preparatory school. The distribution of these credits is not prescribed rigidly, but due allowance is made for differences in educational interests among students even of high school level. While each matriculate must meet some reasonable group requirements, designed to make sure that his training has not been a hodge podge, the range permits considerable sampling in many fields.

All freshmen enter the College division for the pursuit and completion of what is called "junior college work." The student who then desires, and is qualified, to pursue advanced work in some special field enters one of the four other divisions, or one of the professional schools.

This College division period in the student's education is a period of transition between secondary and higher education, a transition which can be made instantly by

only a few students. The Chicago program has been designed to bridge this gap successfully. The time taken to bridge it depends upon the student and the size of the gap. For most students it takes two years; for some one year or less, and for others probably as long as three years.

No specific course and no stated length of residence are required in the College division, since requirements are stated solely in terms of attainment and measured by examinations, which may be taken whenever a student and his Dean agree that he is prepared to take them.

Though an instructor may test the students in his course at any time and in any manner he may choose, the comprehensive examinations at the end of the college period are framed and conducted by a Board of examiners. This regulation promotes a more friendly attitude between students and instructors, students feeling that teachers are working with them, striving to help them prepare to show that they are qualified for the work of the higher divisions.

Class attendance is voluntary, on the theory that attendance at a class is pointless for a student who is not anxious to attend for the sake of the profit to himself educationally. No student has to attend every class session of a course when parts of the course may have been mastered already by him.

In the administration of the Chicago plan the Board of examiners may take into consideration, not only the student's success in the examinations, but also whatever other in-

formation may be secured from his instructors regarding his abilities and attainments. The examinations may be taken during one examination period of several days; or they may be spread over several examination periods, subject to one limitation—all required examinations for promotion to one of the other divisions must be taken within a period of two calendar years.

Having been in the University of Chicago at least one full academic year, and having completed satisfactorily the requirements of the College division, a student may receive a college certificate.

Desiring further education and a degree

a student then enters one of the other Divisions. The programs in these divisions lead to a bachelor's degree, and require a definite amount of specialization in a chosen subject, some systematic study in closely related subjects, and if the student desires, some work outside the division's field. The divisional requirements for the bachelor's degree, have not been announced, though promised for the spring of this year, since next fall will see the first entrance of College division prepared students into the higher divisions. The requirements are being set at a level that may be attained by the average student in two years.

## 1932 Census of N.P.C. Groups

By MARGERY BLACK HALL

*So many readers have written the editor to express appreciation of the publication of this annual census, that the editor wishes to say a special "Thank you" to Kappa Delta's editor who so generously collects and compiles this data we use.*

FORTY-ONE charters were granted by N.P.C. sororities during the past year (March, 1931-March, 1932), a decrease of five over the number chartered during the preceding year.

The total number of chapters in all groups is now 1,111. Three of the forty-one newly chartered groups have not as yet been installed. Last year the total number of chapters in all groups was 1,075. Of that number two have since become inactive. For these reasons the figure in column headed 1931 plus the figure in column of charters granted does not in every case total the figure in column headed 1932.

Four sororities, X Ω, A X Ω, Δ Γ, and Σ K granted no charters during the year.

Six groups granted one each: K K Γ, Δ Z, A Δ Π, A Γ Δ, Γ Φ B, and A O Π.

Three groups, Π Φ B, Φ M, and A Φ granted two charters each.

Five sororities granted three charters each: K Δ, Z T A, K A Θ, A Ξ Δ, and B Φ A.

One group, A Δ Θ, granted four charters.

Two groups, Δ Δ Δ, and Θ Υ granted five charters each.

# Advice to Delegates

*Because of pressure of work, as well as the difficulty of saying old facts in a new way, the staff gladly lets others advise Theta delegates to Estes, for these friendly contemporaries have such valuable advice to give you.*

AMPLE time has been allowed for business if things move as quickly and efficiently as they should. Too often the questions asked and the comments made indicate that the first thought given to an important matter is when a member stands upon her feet and addresses the session. . . . Please let us not have a single delegate or visitor do all her thinking on her feet.

A Φ *Quarterly*, Mar. 1932

## SEVEN REASONS FOR CONVENTION

BY LINDSEY BARBEE, editor

Gamma Phi Beta *Crescent*

From Kappa Delta *Angelos*

"Just what is convention?" said the freshman as she idly traced *Kappa Delta* on the frosty window pane, "And why should I go? Of course," she added hastily, "I know just how rollicking a time I'd have, but does convention itself mean anything more than that?" The senior deliberately closed her notebook, rose, and took a small prism from a nearby desk. She held it against a shaft of winter sunshine, and in a moment the room was brightened by fairy hues.

"Let us say that convention is a strong white light that is passing through the prism of the Kappa Delta sisterhood," she said. "A light that resolves itself into the fine radiant parts that compose the whole—seven rainbow hues, seven fundamental elements of the happy coming-together that we call convention.

"First, there is *Information*—a brave array of astonishing facts, a careful combination of enlightening statistics, a record of definite endeavor and definite achievement. Information that will impart to each member an understanding of sorority funds, sorority accomplishments; that will outline in

each mind the progress of the organization and the plans of those to whom its welfare is entrusted.

"Information will bring *Inspiration*, that intangible something that means an enthusiastic response to every demand; and will teach the value and necessity of *Cooperation*—the fact that no goal is reached through individual effort, but through vigorous and conscientious team work.

"*Information — Inspiration — Cooperation?* Will not the three bring *Vision* and *National Spirit*? Vision of a Kappa Delta that is to be; vision of the opportunities that are to be grasped. National spirit that means the love of one member for another; the loyalty of one chapter to another; the pledge of each chapter to the whole order. While in the midst of the rainbow rays is the rosy one of *Companionship*—companionship that brings the happy memories of never-to-be-forgotten events, that joins east and west and north and south into splendid unity.

"Last, there is *Friendship*. Friendship, strong in its ties, powerful in its possibilities. Friendship that means the fostering of the old intimacies, the formation of new bonds and new associations. Friendship that is the most precious possession of the organization.

"And these," said the senior, "are the seven good reasons for convention."

"I think that I understand," replied the freshman.

A Φ *Quarterly*, Mar. 1932

If you are a delegate, read your convention information carefully, and do everything you possibly can in the way of compiling reports *before* you get there. Don't depend on National to have extra paraphernalia for the few delegates who turn up without correct properties, if I may resort to that

professional expression. For convention is a great drama in the history of our fraternity, and numerous production managers have worked long and hard to make it a memorable performance. Don't forget your lines, nor miss your cues, lest the whole company suffer. And if you are a delegate, plan to attend every meeting and to get to them on time; if you are sufficiently well-informed on Phi Beta matter, every part will hold a vital interest for you.

As for you, alumnae—and there should be many of you there—don't go to convention just to have a good time and to renew a few old acquaintances. Of course you want to do that; but let your active sisters see that you are interested in the welfare of the fraternity and in their efforts to improve it. It will be up to you to set the example for breaking up any little cliques that may form, and to set a standard of meeting and of getting to know as many new people as possible. I heard a delegate to one convention—not Phi Beta, thank goodness—say she dreaded going because her chapter was so far from the convention city that she would be its only representative, and she knew she'd be lonesome. And the tragedy of it was that her fears were realized; all the girls at convention went with friends, roomed with friends, and made no effort to broaden their sorority horizon. It was as much a waste of money and time for them to have had a convention as it is for Americans to go abroad and insist upon talking English with English people and eating only familiar foods in hotels run by their countrymen.

There is another important thing: the national officers are human—a little secret that many delegates don't know, though, on the face of it, it seems that they couldn't be otherwise and maintain their offices. Many timid visitors, going to convention for the first time, leave with their problems unsolved because they didn't have the "nerve" to approach a national officer. *You* won't be like that, will you? Rather you'll be one of those on the watch for the first glimpse of the officers whom you have come to know through their pictures; you will introduce yourself to

them and greet them warmly; you will ask them to drop into your room, as they pass it in the corridor, to allow you to tell them why they have been an inspiration to you and how they must be an even greater one at convention to fulfill all your cherished dreams. They'll love it—really! And the surprising part will be that they'll have problems, too, on which they'll welcome your advice!

And last of all, don't promise to write postal cards to everyone you ever knew while you're there! You'll find every minute a busy one; you'll be happier and they'll get more out of it if you spend your time absorbing all to *tell* them later.

Someone has said, "God gave us memory that we might have roses in December!" What roses in our memory garden next December could be finer than those plucked at Christmas Lake in June? There will be hundreds of blooms, I'm sure . . . a dear little pink bud that blossomed in our hearts at the warm reception we received when we arrived . . . a Jack rose for the fun and frolic that interspersed the serious episodes . . . a yellow tea rose, with its whimsical, undefinable, foreign odor, for that mysterious thrill that convention always gives but that is never explained . . . a wild rose for the side trips in the woods and on the waters . . . a Phi Beta rose for the secret beauty of our ritualistic pageant and the chain it forges . . . a white rose for the sacred, pure thoughts that were at the heart of our desire to go in the first place and our determination to return next time . . . and, at last, a talisman rose, the florists' newest creation, blending the best parts of the other roses into a symbolic torch of formal, festive beauty, to crown our Phi Beta memories as a stately queen before whom all other loves must bow.

Won't you gather such a bouquet with us at Christmas Lake next June?

Φ B Baton, Mar. '32

AMONG the eight charter members of Mortar board at Southern Methodist university were two Thetas, Madeline Roach and Allyne Graber.

## The Poke o' Plunder

ISN'T that an odd name for a shop? But doesn't it pique your curiosity? In the vernacular of the Kentucky mountaineer, 'poke' means a bag, or sack and 'plunder' means a whole lot of different articles all jumbled together. So you see a "poke of plunder" is liable to hold endless possibility for exploration and discovery. That's why this name is peculiarly fitted for this particular shop.

You Thetas who are planning on going to convention this summer are looking for 'value received'. You'll get it in Estes all right but you'll get a bargain if you go out to see the two girls who own the 'Poke.' They're Thetas, too! Marguerite Parkinson and Alice Andrews from Alpha Upsilon.

How to get there? The shop is about four miles from the Stanley, on the Moraine road. A few minutes' drive or just the right distance for a hike. But no matter how you get there, go! The little brown cabin, snuggled down among a clump of huge pines, is about three feet from the Big Thompson River which comes sweeping towards the door and suddenly swerves sharply to the right. Nice river!

The side porch gives you an idea of what's inside. On it you'll find an old spinning

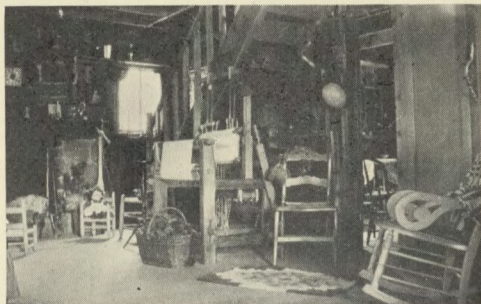

wheel, some "hickory-split bottom" chairs; an old, old "coverlet"—"Dog Wood Blossom," one of the loveliest of many lovely patterns. Inside, see the old flint-lock rifle over the fire place? The loom under the stairs?

Here come the "shopkeepers" themselves! They'll show you some sights you won't soon forget. Homespuns, really, truly homespuns, from the looms of Kentucky mountain women. Yards of dress material, soft blues, greens, rose, brown, black and white. Soft, rainbow scarfs and shawls that wash like a dream. Gay, impertinent little bags, smartly lined and finished. Table runners, coverlets, bedspreads fit for a king!

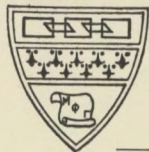

In the next room, linens—and such linens! You won't find them in department stores! Breakfast, luncheon, bridge sets, white, colors, plain, patterned; towels—dozens of towels—all sizes and colors. I'm warning you, you'll want them, every one!

Go out and "Poke" around for yourself. They're expecting you. Get the girls to show you the mysteries of the loom. Ask them to tell you of their vastly interesting years spent in settlement work in the Kentucky mountains. Go out, I say. Seeing is believing!

## INTERESTING THETAS

### Josephine Quigley

SINCE woman's emancipation much ink has been spilled over the subject of woman's rôle in society—is she to preside in the nursery or at board meeting, keep the home fires burning or set the world on fire? Most women would like to do both, some women have done so, not a few of them Thetas. One Theta who has proved that the dual rôle of homemaker and social worker can be taken successfully by one woman is Josephine Quigley, Delta, University of Illinois, Alpha Lambda advisory board chairman. Most women would consider the raising of eight children a sufficient career, but Mrs Quigley has eagerly met all its demands and yet had much time for many other activities to the admiration and wonder of all who know her intense self.

The family budget in most homes refers only to the regulation of its financial expenditures. In the Quigley home it means the wise spending of time and effort as well as money. Josephine Quigley has made a study of budgeting for a good many years and has applied her knowledge to the management of her home. As a result the duties of the household are divided and arranged so that they are performed in the easiest way with the maximum of free time for each member of the family.

This year Mrs Quigley had an opportunity to put her knowledge to national service, for Miss Effie Raitt, head of home economics department of the University of Washington was appointed chairman of the committee on household management at the special conference in Washington, D.C. and Mrs Quigley was placed on her committee. Josephine Quigley worked on her assignment without any dream of making her report in

person at Washington. Her surprise can be imagined when she received a most impressive official communication asking if she could arrange to make only one trip to Washington! That meant a trip across the continent!

In Washington the members of the committees attended meetings and worked and studied preparing their papers on all phases of the home. Mrs Quigley reported on the management of the servantless home in which the children share in the responsibilities of the household. The days were long and arduous but intensely interesting and the results were most satisfactory. One of their most difficult tasks was the condensation of their material so that it might be published in pamphlet form for government use.

At the end of the conference Mrs Quigley spent several enjoyable days in sight seeing. At the White house an officious guard refused her admission because she had neglected to get a letter from her senator. Another guard however, was most courteous and conducted her through all the formal rooms and even offered to show her the family apartments. Mrs Quigley however respected the privacy of these rooms and asked to see only the nursery. This was of interest to her in connection with her study and also because it was the nursery of the children of Margaret Hoover, Phi, Stanford university.

Since Mrs Quigley's return to Seattle she has been in much demand as a speaker at women's club and as always has been most generous with her time. But the highest appreciation of her efforts came when she received an invitation from President Hoover to attend the conference to be held in December.

### Willetta Wright Donert

A THETA who made a clear-cut impression on the life of the community in which she lived, was Willetta Wright Donert, Alpha Xi.

To say that her great activity, generated by a surpassing energy, both physical and mental, contributed to her untimely passing on January 12, 1931, is not an exaggeration of fact. She left such an emphatic impress upon Pendleton, the eastern Oregon city where her home was that her death brought forth generous editorial expressions of the high esteem in which she was held. "Infinite tact, a sense of humor, ability to see the other person's point of view, real capacity for friendship, a tireless worker," were public appraisals of her personality and capacity.

Immediately after her death a spontaneous movement arose in Pendleton to establish a Willetta Wright Donert memorial. Since service was the theme of her unselfish activity, and in recognition of her great love for children, a children's corner in the Pendleton public library has been dedicated to her memory. Towards establishment of this helpful corner, \$500 was quickly raised in the city towards whose upbuilding she contributed so much. Other contributions, no matter how small, will be appreciatively received by Mrs Brook Dickson, Pendleton, another Alpha Xi alumna and a member of the Willetta Wright Donert memorial committee.

Mrs Donert was a member of the class

of 1911, University of Oregon. She was a brilliant undergraduate, keen, perceptive, analytical, yet with more capacity for accomplishment than is generally accorded the scholastically conspicuous woman. In 1917 she married Fred Donert, Albany, where she

had taught in the high school. They had one daughter, Patricia Douglass. Previous to her marriage she demonstrated her courage and fortitude by living alone, for homesteading purposes, on a tract of isolated Eastern Oregon land.

Possessed of magnanimous impulses and understanding of social values in a community, to Mrs Donert membership in an organization was merely a means to an end—the achievement of some good purpose. In Pendleton, where she has been spoken of as the city's "most outstanding woman," Mrs Donert was a leader in

the Current literature club, the Woman's club, the Parent-teachers' association, the Pendleton branch of American association of university women.

She was an active and resourceful worker for the Vert memorial in that city, and made one of the principal arguments before a state board on behalf of locating a state normal school there. She organized and conducted a kindergarten in her own home. In Red Cross, Camp Fire and Girl Scout organization work, she was at the forefront. The Pendleton garden club, a city beautifying effort, Mrs Donert originated. In political gatherings her influence as a speaker was felt.

But probably her greatest civic achievement was her successful single-handed campaign for adoption of a model milk-production ordinance for her city. She personally inspected many dairies, noted conditions, gathered statistics, aroused public feeling, then personally presented her findings to the city council, where her tact and intelligent presentation resulted in adoption of her ideas.

Her unfortunately shortened career as student, teacher, homesteader, mother and civic leader was the sort that exemplifies a richness of personality linked with sense of creative instinct for accomplishing what the inner soul craves. It is believed that the Wil-

letta Wright Donert memorial, already in existence but which greatly deserves widespread support from members of her fraternity, is the first Oregon civic memorial of any character in memory of any Theta.

What a prominent Pendleton citizen said of Mrs Donert in a memorial address before 300 Pendleton women, may well be said by all Thetas who knew her:

"We cannot forget her unselfishness and helpfulness. Her life indeed was an inspiration; her memory a benediction. We all remember her tactfulness, her kindness and the generous use of her time and effort."

### A Theta Poet

This spring the Macmillan company will publish *Kindred*, by Abbie Findlay Potts, Iota 1906 and 1920. "Based upon memories and legends handed down to one woman from her Scotch and Dutch ancestors in America during the last century, this poem might be called a social epic; although it portrays the folk and folk-ways of an almost bygone culture, its songs, tales, and dialogues illustrate the eternal adventure of all families everywhere. The poem is also autobiographical: it represents the mind of the poet as the scene of the actions and passions of her forbears. Within her personal experience the dreamer, the scholar, the master of things, and the master of men reenact their old rivalries; and their mutual strength and weakness are reconciled at last in the awakening power of her single soul."

For women the book will contain mes-

sages of a highly representative nature, for the action of it records the effort of one of them to relate domestic and professional life in an artistic design more permanent than any particular home or particular career.

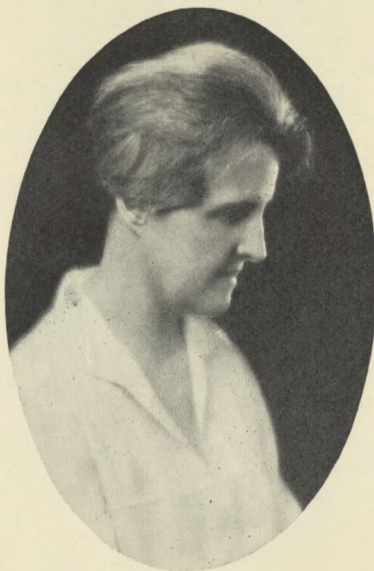

The author, whose experience in Iota of Kappa Alpha Theta was a supreme lesson in the art of poetry, offers to contribute to the Loan and fellowship fund as from Iota a percentage of her profits on books purchased through her (address Rockford college, Rockford, Illinois).

\* \* \*

The highly personalized epic of an American family. Miss Potts creates her ancestors and their world with a sure vigor that carries conviction. Her verse has a subdued

luster of its own; it is strong, flexible, and admirably adapted to her purpose.

## Woman's "No" Prevents Unity Among Minnesota's Democrats

MINNEAPOLIS—(AP)—A gray-haired, middle-aged woman today said "no" and with that vanished hope of reuniting Minnesota Democrats before the party's national convention at Chicago in June.

Her decision made certain that two full slates of delegates from the state will compete for seats at the meeting to nominate the party's candidate for president. And knocking at the convention door at the head of one slate seeking admittance will be the woman, Mrs Ruth Haynes Carpenter.

When the party's state convention was held early in March and delegates instructed to support Governor Franklin D. Roosevelt of New York were chosen, Mrs Carpenter started a bolt of dissenters.

She accused "regulars" of having packed the convention by secretly increasing the membership of the state central committee from less than 100 to 260, selecting only Roosevelt supporters, and giving each a vote in the convention.

In 20 minutes she organized a rump convention which selected another slate of delegates without instructing them although Mrs Carpenter and most of her followers are potential supporters of Former Governor Alfred E. Smith. Her supporters began calling her the "Joan of Arc" of the party.

She announced that a brief which contested seating of the Roosevelt delegates has been forwarded to the national Democratic committee.

Preservation of the party's identity in the state is one of her announced aims. She accuses the "regular" group of preparing to agree to trade Democratic support for state candidates of the Farmer-Labor Party for Farmer-Labor support of Roosevelt if he is nominated. To block such a step, her group purposes to present a ticket of Democratic candidates.

## May Queen

THE New York city Sunday papers for March 20, carried a charming picture of Norma Elizabeth Schuetz, Beta Beta, who was elected May Queen at Randolph-Macon. A story of Norma and her court will appear in the fall issue, this issue having to go to press before the event.

## Nebraska's Sweetheart

THE sweetheart of Nebraska stepped from the leaves of *The Cornhusker*, an enlarged reproduction of Nebraska's year book, into the Kosmet Court after the final act in the Kosmet Klub's annual revue, November 11. Willa McHenry was the popular sweetheart this year selected from a number of candidates by the vote of men on the campus. Willa is Rho's treasurer and is a member of the A Cappella choir of the university. She is a junior in college.

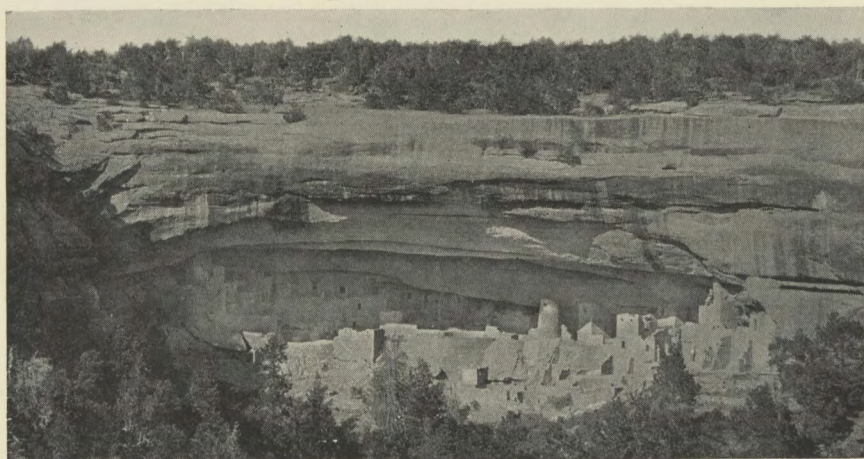

The Kosmet Klub, an honorary dramatic society whose membership includes only men, each year presents a "show" composed of acts contributed by fraternal organizations. This year the Thetas combined with the Phi Kappa Psi to stage a picnic skit preceding Willa's presentation.

The Queen of the Kosmet Court this year was Nebraska's Sweetheart of 1929, and a Theta too, Lucille Carrothers. Lucille graciously presided at the side of King Kosmet as Willa was welcomed into the new court by the Prince and duly crowned.

"The Queen is dead! Long live the Queen!"

## Official Convention

IN ORDER to introduce to the fraternity at large those members who will share in the responsibility of wisely planning for the next two years of Kappa Alpha Theta development, this issue was planned to carry the picture, and official fraternity position for next year, of all delegates of college and alumnae chapters, as well as those of District presidents and Grand council. Where the plan falls short of execution, the reason is the over modesty of some of the elected delegates, who "have no pictures," so far as the office could ascertain.

A second reason for this gallery is to facilitate getting acquainted at convention, and to promote friendly contacts.

It is interesting to note that among alumnae delegates, are several women of wide distinction, several former officers, several who as undergraduates officially represented their college chapters at previous conventions, and several "repeaters" as official delegates of the chapters they are representing this summer (some tribute to the fine way in which they have carried conventions home to their chapters). In this group too, are several Thetas who have daughters now active in college chapters of Kappa Alpha Theta, as well as others, who we hope are like the delegate who wrote of herself a short time

ago—"Mother of three potential Thetas."

Speaking of daughters—several college chapters are represented by girls whose mothers are Thetas too, and at least two of those mothers have themselves been official delegates to earlier conventions.

And among those college delegates is a real rancherette, whose ranch, a quarter section, adjoins her father's 30,000 acre ranch, and who has the Prince of Wales for a friendly neighbor when he visits his ranch in Western Canada.

And to be completely up to date, the college delegation includes an aviatrix, the first woman to attain a private pilot's license from the first flying school connected with a regular college curriculum.

One delegate and one officer at convention are experienced colonizers, having been largely instrumental in the successful colonizing for two Theta chapters.

Now you ask, what are the names of these "celebrities"? In order to be completely up-to-date, and carry the puzzle twister that every magazine seems to think essential these days, we leave you to answer your own question.

And many of the others have honors too numerous to mention individually. A fine lot they are—come meet them at Estes Park, June 29-July 3. All Thetas welcome!

# Convention

**W**E SHOULD have more eastern Thetas than usual at the Estes Park convention, as the fares from east of Chicago are cheaper than they have ever been. They are based on a fare and a tenth, plus \$2 for the thirty day tickets, a very large reduction.

The railroad has prepared an attractive itinerary booklet which Mr Owens will be glad to send to anyone. He also will give detailed advice as to routing, and ticket buying directions to those who are making the Estes stop a part of a longer trip.

The Rocky Mountain transportation co. has been most generous in its cooperation with us and are giving us all the free service which the Public service commission of Colorado will permit. They are meeting our Texas passengers specially and will bring them around to Ft. Collins so that they may share in the party there, and they are doing the same thing for the California Thetas who will leave their train at Greeley. In Ft. Collins their busses will take us around during our visit with Beta Gamma, and their trucks will come over to Boulder after our baggage so that it can be in our rooms by the time we get to the Stanley.

The nearer we come to June 26, and the more the details of all the plans emerge, the surer I am that this is an occasion which must not be missed by any Theta. Our part of it will be unique, gay, and generally soul satisfying. The Rocky Mountains will be at their most beautiful season. The combination may never happen again!

### Corrections

Between the proof reader and the convention manager herself, the March magazine contained several mistakes of fact relating to the cost of convention.

The full hotel bill for those who engage a room for two, with bath, is \$37.50. For those without bath, it is \$34.50.

Horses are not so expensive as announced, being \$2.50 for half a day, \$4 a day.

The cost of the post convention trip to Yellowstone is

2 persons to a lower berth, each.....	\$82.67
1 person to lower berth.....	94.58
1 person to an upper berth.....	89.85
Via lodges, \$9 less.	

The corresponding costs for the trip that includes also Glacier park are \$143.71, \$159.46, and \$153.15.

### Convention "Kite"

Yes, there will be the usual convention *Kite*, the newspaper which will tell you what happens at Estes park and give you the inside gossip of the friendly social asides of convention.

If you won't be at convention, send your subscription, fifty cents for the entire edition, to Mrs Byron Jacobson, Business manager, 3227 Bryant av. Apt. 4, Denver, Colo.

If you will be at Estes, your subscription will be included in your registration fee, so you have no further concern about getting the *Kite*—but if you want "extra" copies to send home in lieu of postals or letters, better send in those subscriptions to Mrs Jacobson, so enough copies will be printed to fill your desired orders.

If you are joining the Special at Omaha and arrive there before the Special, get in touch with the secretary of Omaha alumnae, Mrs James H. Moore, 114 S. 54th st. for Omaha alumnae plan a ride about town and a luncheon for convention visitors that must wait for the Special in that city.

Any Theta en route to convention who arrives in Denver alone, or apart from the regular train parties, may have her questions answered and herself made welcome by calling Mrs Roy Forbes, 950 Lafayette st. Phone: "York 3774."

# The Eternal Question

What shall we wear? What clothes must we take to Estes Park? How much luggage can we carry conveniently?

To answer the last question first. Take as little luggage as you can get along with comfortably. Hand baggage will go on the stages that carry us into the mountains, but trunks—they would arrive probably about the time convention started to trek back to Denver. Not that we are going into the wilds—merely that “long haul” for heavy baggage must wait a convenient baggage truck.

Limiting your baggage simplifies the clothes problem from the start. And a simple problem we want it to be. In keeping with world conditions today this is to be a simple, inexpensive convention, a gathering of Thetas to plan wisely for the fraternity's future and to enjoy recreation together.

A sport dress, a college day time frock, or a traveling suit, either one will be adequate for all business gatherings. An informal afternoon gown for dinners, teas, etc. may be needed if you like to change after the day's work is over. Formal dress will be worn only at the banquet, but that need not be a new gown, or an elaborate one.

If you plan to golf, ride horse back, swim, hike, or indulge in other athletics, bring the clothes you customarily wear for such play.

And then be sure to have one warm coat. A sweater, or warm jacket, in addition will be handy to slip on during cool mornings and evenings.

Then there will be the Wild West party—a costume party for all who care to “dress up”—and those in charge hope that many will appear in costume, thus helping make the party a gay success. As impersonations the committee suggests—dance hall girls, miners, trappers, prospectors, cowgirls, or cowboys, pioneers. Again simplicity is to reign and ingenuity, not costs, should plan your costume.

Just one bit of advice—have some comfortable walking shoes in your bag, for even a brief stroll on mountain paths is made more pleasant by comfortable old shoes.

And so—the answer to the eternal question is—whatever you now have in your wardrobe will be adequate clothes for those convention days. Don't worry about “what we shall wear?” but come and have a good time.

But it appears to some that fraternity is growing conscious of itself. It has not been so long since a great many college men laid aside the cap and bells that marked them as America's jesters; now they are arising to make something better of the college fraternity. No one can say that they are doing this alone. Pressure from the outside, as well as a growing conviction from the inside, is guiding them in a new and serious direction toward making fraternity homes a greater force for education than they have been in the past.

The history of fraternities has been the history of a child, crawling, clinging to whatever support there was at hand. If the signs of the times are interpreted correctly here, fraternities are now beginning to walk. . . . [in this issue appear such apparently] unrelated bits as these: Cornell chapter finds new library indispensable; Yale chapter seeks to make itself greater part of university by emphasizing need of cultural goal for fraternity house; Michigan chapter, with seven men on foot-

ball team, raises scholastic average of chapter eleven places; Illinois chapter institutes fraternity house forum with visiting professor as leader.

Now does this not mean one thing? One series of things? That the undergraduate is beginning to question fraternity and is asking himself if there are not invaluable gifts to be had from it that he has not cared to take in former years, under different, if similar conditions? Does it not mean that fraternity men are visioning still greater benefits that may come to the individual through mass striving after an unmarked goal of the greatest good for the greatest number? And are not more men going to school with the idea that they must have time to live graciously while in school, surrounded by some constant aura of culture? And are not some fraternity men beginning to believe that where the classroom leaves off, the fraternity must begin, still in the same educational tone, but with different shades of learning?

## Hostesses

While all of District V is on tiptoe to welcome convention, and every chapter is prepared to do its share to make convention a success, the brunt of the planning and execution must necessarily lie with a small group—in Kappa Alpha Theta known as the Executive committee. Following custom, Denver alumnae as the alumnae chapter nearest convention was asked to form the executive committee, each member in charge of some specific phase of preparations, aided by a committee of her own choosing from the district at large.

So, we take pleasure in introducing the executive committee here, and then when you meet them you'll know them without waiting for a formal introduction. That will give you more time to get introductions to other members of their committees and the rest of the hostesses—all of District V.—L.P.G.

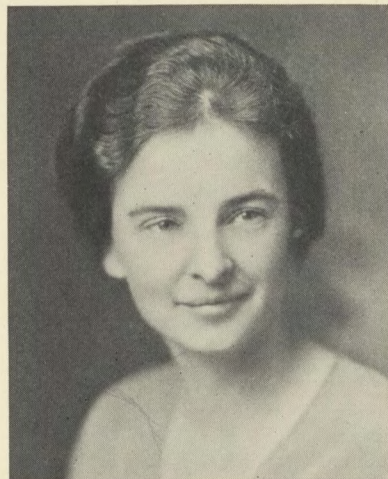

### **Chairman, Josephine Martin Barteldes, Kappa**

There's one Theta you all must know,  
Affectionately, we call her "Jo."  
Barteldes is the other name  
Already she has brought it fame.  
Jo is executive chairman of convention  
With ideas and plans beyond mention.  
You'll recognize her fluttering by  
With cheery smile and twinkling eye,  
A close cropped head of shiny hair  
Conceals many ideas lurking there.  
Oh yes—her husband adds to all the  
schemes.  
Really—a great Theta team!  
They will be at convention with their  
bag of tricks  
Come—make your reservations—quick!

MARY HUNTER

### **Courtesy, Alice Arundel Steele, Beta Gamma**

Alice was Denver alumnae delegate to Toronto. As her personality is so outstand-

ing, those at that convention will probably remember her.

In Denver she is active in Theta alumnae affairs, having held various offices with great efficiency.

You will be impressed by her sweet gentle mannerisms as she fulfills her duties as Courtesy chairman. She will be there to welcome you to our big wide open spaces and glorious Colorado Rockies.

INEZ MONTGOMERY

### **Social Events, Madeline Whitney Forbes, Alpha Upsilon**

You've heard of the people who always say the wrong thing at the right time and the right thing at the wrong time—well Madeline is the kind who says the right thing at the right time—wears the right thing at all times and does the right thing always.

I've known her ten years and have never heard her say an unkind word about anyone—and as head of Social events for convention there couldn't be anyone more efficient or enjoyable to meet. Our Madeline is a perfect hostess at all times, and a perfect dear besides.

MARIE BRADLEY

### Registration, Lucille Beatty Grieb, Beta Iota

Lucille Beatty Grieb has the important position of chairman of registration.

Lucille is one of the active Denver alumnae, having served Theta in many and varied capacities both while in college and later in alumnae activities. She has also had a great deal of convention experience.

So tarry a bit at the registration table because you will want to meet Lucille—You'll know her because she is small, blonde, and will have a big smile for you—and will be ready to lend a hand if you seem to be having a bit o' trouble.

ERNA LEHAN

### Mary Hunter, Publicity

Many of you know Mary Hunter. Those who have not met her may anticipate a new and delightful friend. She is a noted toastmistress and speech maker in our section and we, in Denver, eagerly look forward to her whimsical and spontaneous little talks. I sometimes feel that we take advantage of her kindness and willingness to work, but I cannot

imagine an outstanding Founders'-day banquet, or any Theta banquet, in Denver without our Mary in the leading role. At this time she is doing publicity work for convention, for which she is well qualified. When you detect a particular humorous quality and fanciful spirit in the notices you read about convention, you will be "discovering" Mary. May I give you a tip: if you do not meet Mary Hunter, you will be missing a bright spot of convention days!

GAIL RELIFORD

### Credentials, Inez James Montgomery, Alpha Tau

To those of you who were at Breezy Point convention, Inez James Montgomery needs no introduction. She is the bright peppy little person every one knew and admired there when she went back to represent Denver alumnae: the one who had the charming little daughter with her, you remember, and took entrancing snaps of Thetas at convention, mounting and labeling

them in order that two years later the album might be enjoyed at Toronto. She also attended the West Baden convention and the one at Charlevoix, so you see she's had experience to particularly fit her for her special job of looking after credentials when we gather at Estes Park.

ALICE STEELE

### Banquet, Mary Parker Freeland

"Believe it or not," but she is the mother of five children! This is Mary Freeland, who, notwithstanding her home duties, still finds time to undertake responsibility in our alumnae chapter in a most efficient and delightful way. I met her first at

the elevator of a department store, shortly after her arrival in Denver. Her pin was a means of introduction, and as I look back to that day I can see no change in her save perhaps a deepening of the charm and grace that so attracted me at that time. Her husband is a physician whom Denver is proud to claim.

Make Estes Park your goal this summer.

and get to know her—also the rest of us. Come to Colorado and learn the secret of eternal youth, as exemplified by Mary Free-land!

MABEL BAUM SMITH

**Marshal, Marie Babcock Bradley,  
Kappa**

Marie guides one of the "whales"  
for convention

From where one sits to Fire pre-  
vention.

When she tackles a task  
She does it with style,  
Without any fuss, and with a smile.  
That's Marie.

**Secretary, Mable Baum Smith, Phi**

Mable Baum Smith is secretary of the Executive committee, and chairman of the housing committee. She and her family have had a cottage in Estes Park for years, so she will know just how to make comfortable arrangements for all who are seeking cabin quarters.

Last summer she and her two children drove to New York and joined the Thetas who were going to tour Europe. Her Theta enthusiasm is still on high as she convinces you, that the best way to enjoy a trip abroad is with your Theta sisters. For any of you bridge enthusiasts, I'm sure she will get up an interesting game.

Her greatest attraction, to me, is her sincere cordiality. Several years before I came to live in Denver I visited here. I was waiting for an elevator, in one of the stores, one day, when a smiling, friendly person came up and said she had spied my Theta pin and that she was a Theta too. When you arrive in Colorado, she will give you that "grand and glorious feeling," just as she did me.

MARY PARKER FREELAND

**Formal Events, Philippine Anderson  
Dixon, Beta Gamma**

Would you like to know a girl who is clever, brilliant, attractive, and dependable? A girl who led Beta Gamma her junior year at college and proved a most able president. One who took charge of rushing her senior year, outlined a really unique party, and led the Thetas in a successful season? You who come to convention are going to have just that chance. May I introduce to you, Philippine Anderson Dixon. She'll be on hand to help make all those lovely, inspiring Theta services long-remembered. They are sure to be complete because she has charge of all paraphernalia.

KATHERINE ABBOTT

**Exhibits, Erna Beardsley Lehan,  
Beta Iota**

Erna Beardsley Lehan, one of Denver's most active Thetas, has only been in Denver a little over a year but I don't know what we would do without her now.

Those who were at District V's convention last summer will remember Erna, I'm sure, as the one who had such an artistic bird luncheon. We always call on her to plan our parties if we want something beautiful or unusual.

She has charge of the exhibits at convention so look her up as well as the exhibits; which we are positive she will have arranged in a most pleasing fashion.

LUCILLE GRIEB

**"Kite" Editor, Katherine Abbot,  
Beta Gamma**

What pep and snap our *Kite* will have with Katherine Abbot as editor! Katherine

has always been interested in publications. When she was active in Beta Gamma she was society editor of the college paper, and one of the editors of the year book. Since she has been out of college she has continued her work as assistant advertising manager of the Piggly Wiggly stores in Denver. She publishes the Piggly Wiggly calendar besides putting out "Kay Kennedy's Kitchen kinks," a weekly page that gives tested recipes, new foods on the market, and all kinds of useful hints for the housewife. What zest she puts in that page! That's what she's going to do with the *Kite*. Don't miss it.

## YOUR NEW ADDRESS

We're a nomad race of people,  
 Says renowned Count Keyserling;  
 We keep moving, moving, moving,  
 It's especially true each spring.

Post offices' reports come in  
 With changes more or less,  
 But often all the word they send  
 Is "gone, left no address."

If all who pull the tent strings up  
 Would drop us just a card,  
 With new address writ very plain  
 Our lot would be less hard.

We'd like the terrace, ave., or street,  
 With number on your door.  
 You're all paid up so why not send  
 Your new address once more?

# Alpine for a Post-Convention Vacation

SO YOU'RE going to convention! What a glorious start on a summer vacation. After that—more of the west? By all means. Those seeking mountain scenery will travel to Billings, from there going to Yellowstone park, Glacier park and—may we add—ALPINE.

For we're running a summer resort at East Rosebud lake, Alpine, Montana—"we" being Harriet Johnston, Alpha Nu, Willard Trask and I, Margaret Johnston Trask, Alpha Nu.

Alpine is in the Beartooth mountains, which form the northeastern border of Yellowstone park. Travelers from Switzerland tell us that the Alps have no more beautiful scenery than Alpine.

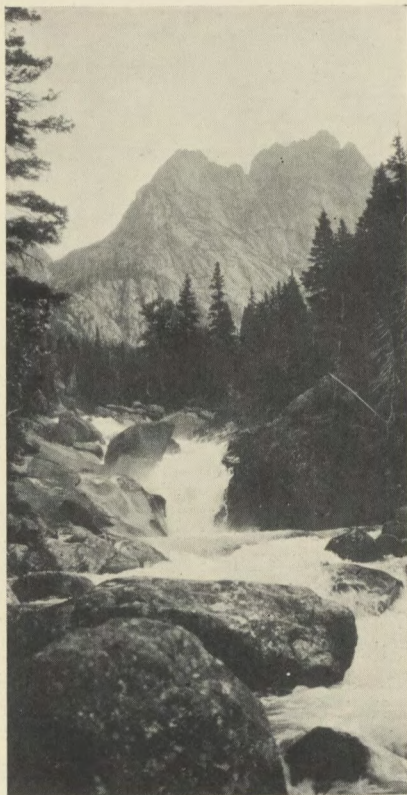

Harriet and I have spent every summer for the past eighteen years at Alpine—no wonder we love it. "Bill" has become enthusiastic with only three years' experience of moonlight on the lake, overnight pack trips,

and trout big enough to furnish thrills for any fisherman. This summer we're turning pleasure into business. We've leased the clubhouse at the lake, have made it more home-like, and hope you'll spend your vacation with us.

We'll meet you in Billings or Columbus and drive you southwest to Alpine. The last ten miles of the trip your attention will be divided between marvelling at the splendor of the mountains and trying to be the first to see a deer, which are plentiful but hard to distinguish from rocks and trees. The mountains get higher and the canyon narrower and you will wonder how there's room anywhere for a lake, but at last we'll come to the end of the road, Alpine, with the snow capped mountains surrounding it mirrored in the clear waters of East Rosebud lake.

The club house is of logs and you will be accommodated there or in tiny log cabins.

HALFWAY TO ELK LAKE

The club house is the center of activity for the thirty families who have summer homes around the lake.

A five hole golf course—if there were more holes you'd have to tee off a mountain crag—boating, swimming for those not daunted by melted snow, trout fishing, hiking, and horseback trips to the many other picturesque lakes nearby will provide entertainment for those who like more than scenery for a summer's vacation.

The altitude is 6500 and half a day's horseback ride will take you 4000 feet higher. It is always cool at the lake—20° cooler than Billings. Warm clothes and thick soled shoes are essential for comfort. Lack of hay fever, mosquitoes, and poisonous snakes add to the attractions.

Send your children to Alpine when school it out and join them after convention. Harriet's winter job has been teaching physical education for the three years since her graduation and she has an athletic program planned that will keep every child busy, healthy, and happy.

Our rates are only \$4.00 a day, with horses at \$2.00 a day or \$1.00 for a half day. You can have more scenery and more fun for less money at Alpine than anywhere in the world.

For further information, write to me, Mrs W. F. Trask, at 206 Yellowstone avenue, Billings, Montana.

## ALUMNAE CHAPTER YEAR

### APPLETON ALUMNAE

Appleton alumnae enjoyed a successful year. Supper meetings were continued at homes, the third Friday of each month. Three members had charge of each meeting and three Alpha Psi undergraduates were invited to each supper, leaving before the business meeting. There was an average of thirty at meetings.

Because calls for money were so numerous last year, we decided this year dues should cover everything, banquets being optional. A rummage sale in the fall gave us extra funds for the Christmas party, at which Mrs Grasset, Grand treasurer, and Alpha Psi, were honor guests. The party was at Marie Jennings and we gave each other white elephant gifts. Alpha Psi put on a skit, and Joan McGillan read a Christmas play. Helen Rudin showed a reel of pictures taken on a holiday in Switzerland. Alpha Psi presented a five-pound box of candy to the alumnae.

Our own Marie Snyder Bathke, president of District X, was a guest at the November meeting.

### BOSTON ALUMNAE

The February meeting was in the afternoon at Stella Malloy's apartment on Beacon Hill.

Jessie Eastman had a supper meeting at her house in Cambridge in March.

Boston alumnae extends its sympathy to Maud Houston Bell Plowman in the death of her husband, George Taylor Plowman, the well known etcher. Funeral services were held at Mt. Auburn cemetery chapel March 30.

### BURLINGTON ALUMNAE

The year has been enjoyable under the leadership of Helen Stiles French. The first meeting was at her home the third Tuesday in September. Every Theta alumna

in Burlington and vicinity received a personal letter from her urging that she become a member this year. The letter was a splendid idea and the meeting was largely attended. The second meeting was at the Theta house, the November meeting at Ruth Lane's and the December meeting with Florence Woodward at the home of Mrs Groat. Founders'-day celebration took the place of the January meeting, when we all met at the Theta house with the college girls. The February meeting was at the home of Helen French with Doris Upton and Ann Middlebrook as hostesses. The March meeting was at Hazel Dean's. We plan to go to Shelburne for the April meeting to meet with the several Thetas there. The May meeting will be at the Theta house, when the seniors will be with us for Senior service. The final event of the year is a picnic at Ruth Gray's camp at Starr farm beach. This is an annual occasion, with the college girls as guests, and is always a pleasant one.

We are so closely associated with the college chapter that our aim is to do all we can to know and help them. This year we ran a rummage sale the first of the year to help out on finances. And we have had three teas at the Theta house with the college girls invited, which were planned to become better acquainted and have proved successful.

We sometimes feel that we are too far away to have many contacts with the national organization. But this year we have had visits from Mrs Kircher and Mrs Poole. Quite a number of our alumnae and undergraduates attended the installation at McGill. And of course we shall have a delegate at convention.

### CHICAGO SOUTH SIDE ALUMNAE

In a city whose distances are as great as those in Chicago, the everlasting problem is finding convenient meeting places.

Once a month we have a luncheon or supper, three acting as hostesses, planning and serving.

Every place one goes, there is a demand for money. At the South Side Theta meetings, one can go with an empty purse unless she chooses to play cards.

Our big annual scholarship fund bridge party was vetoed unanimously for this year. In its place twenty-five cents is charged for playing cards at each meeting. Instead of a prize at each meeting, a prize for accumulated high score will be given in June. Our Scholarship fund is gradually growing. By June we hope to have as much as one big party would have netted.

## CLEVELAND ALUMNÆ

The Cleveland chapter has had an unusually successful year, eighty being enrolled as active members with an average attendance at monthly supper meetings of eighty-five.

Funds raised have equaled those of other years, so that all customary contributions have been maintained. Money making projects include sale of extracts, magazine subscriptions, Christmas cards, and home made fruit cake.

Founders'-day was celebrated with a banquet at the Cleveland Chamber of commerce under the chairmanship of Lena Ebeling, Alpha Omega. Following the Founders' ritual the playlet, *1870—Thetas first*, written by San Diego alumnae, was presented under direction of Jacqueline Stice Kenney (Mrs Vernon C.) Kappa.

Cleveland alumnae has taken particular interest this year in local social work activities, a social service committee being under the chairmanship of Elizabeth Lockridge Hogate (Mrs Donald O.) Alpha. Members brought to the December meeting a large collection of used clothing and canned goods, donations being divided between Red Cross Home service and Associated charities. Under the leadership of Florence Foster Coons (Mrs Lee M.) Beta Tau, a special

group has met one afternoon every two weeks to sew for Associated charities, the finished products including girls' dresses, boys' blouses, underwear and baby clothes, being donated to Associated charities.

Active in the chapter are twelve professional social workers who help stimulate the chapter's interest in social problems. Members of the chapter giving their services regularly as volunteer workers for various social agencies include: Nelle Morse McConaughy (Mrs George C.) Beta Tau, and Marybelle Crow Rathbone (Mrs R. John) Iota, Lakeside hospital social service; Mabel Keig Dyer (Mrs C. D. Jr.) Tau, City hospital recreation; Mary Mateer Douglas (Mrs Richard S.) Epsilon, and Grace Nash Runnels (Mrs Scott C.) Alpha Theta, Y.W.C.A. Friendly service; Florence Foster Coons (Mrs Lee M.) Beta Tau, Y.W.C.A. board; Marguerite White Black (Mrs T. McCance) Epsilon, Church of the Covenant social service department; Maud Lyon Bell (Mrs W. C.) Alpha Gamma, Hertha Raid Laisy (Mrs Harold K.) Eta, Grace Nash Runnels (Mrs Scott C.) Alpha Theta, Maurine Stevenson Dunn (Mrs C. L.) Alpha Upsilon, and Florence Foster Coons (Mrs Lee M.), Charlotte Hoyt Starbird (Mrs Paul), Harriett McCann Roudebush (Mrs Geo. M.), all Beta Tau, field workers, office or motor service with Cleveland Associated charities.

## COLUMBUS ALUMNÆ

Columbus alumnae has on its roll forty enthusiastic members, alumnae of fourteen college chapters.

Monthly meetings have been in the form of evening spreads at homes of members, where interesting speakers and some bits of special entertainment have added a zest to the usual business sessions.

Alumnae who have kindly opened their homes to us are Mary May Eckley (Mrs Fred), Diana Taylor France (Mrs Wesley G.), Phoebe Mickel Rinker (Mrs Alan S.), and Catherine Hamilton Power (Mrs Donald C.). The November meeting was at the chap-

ter house, when it was our privilege to have as guest-speaker Mrs L. C. Rogers, president of District III.

In December we were hostesses to Alpha Gamma and its Mothers' club at a tea at the chapter house, an annual occasion when Alpha Gamma's three honor badges are awarded to the members of the college chapter most outstanding in scholarship, campus activities, and loyalty to Theta.

For the story of our Founders'-day celebration see the March issue.

The future event in the year's activities is Alpha Gamma's annual birthday dinner to be in May, to which both alumnæ and college Thetas are invited. At this time the graduating seniors will be welcomed into the ranks of the alumnæ.

#### DALLAS ALUMNÆ

With one exception, when a tea for Theta mothers was given at the home of Mrs J. W. Bartholow, Dallas alumnæ meetings have been strictly business affairs. For three years Beta Sigma, its founding, its babyhood, and its growth, have been our most serious concern. We have loved watching it grow from a small group, almost wholly dependent upon us, into a large, efficient body of girls. Now that it can manage its daily affairs, as well as its initiations, the alumnæ are sponsoring its problem of housing. I say problem advisedly, because we have met with many difficulties in carrying out Theta ideas. However, every effort will be expended before we give up.

Our January meeting was at the home of our president, Mrs John T. Gano, where we were delighted to have with us Mrs S. W. Willson of Evanston, Illinois, who was our own Sue King, Alpha Theta.

At Mrs Ben E. Griffin's (Margaret Henderson, Beta Sigma) home in February, we had a rare treat. Dr Cosette Faust-Newton, Alpha Theta, internationally known speaker, writer and traveler, gave us a most interesting introduction to her book, *The Rainbow-hued*

*trail around the world*. She presented the alumnæ chapter with a de luxe autographed copy for its archives. Dr Newton's fascinating personality is irresistible.

Dallas alumnæ is happy to have several new and active members: Mrs George A. McClellan (Hallett McPhail) Alpha Theta, returned recently from Richmond, Virginia, and is living at 3202 Wycliff avenue; Mrs E. O. Porch, Jr. (Virginia Pontius) Kappa, is at 5731 Mercedes; Mrs Henry S. Pierson (Harriett Chittenden) Alpha Iota, at 4402 Travis; Mrs Morton Bigger (Hilda Wofford) Alpha Theta, on Lover's Lane.

All Texas Thetas will be glad to know that Major and Mrs Claude Washington (Ethel Sykes) Alpha Theta, recently of Honolulu are now living at Bryan, Texas.

#### ITHACA ALUMNÆ

Ithaca alumnæ opened the year in October with a well attended meeting following the customary pledge supper at Iota's house.

One aim this year was to become better acquainted with the undergraduates in Iota, so the sophomores were invited to tea following the November meeting. The traditional Christmas supper party was given for Iota in December, and a good time was had by all.

Founders'-day was celebrated by a luncheon of the two chapters, as related in the March issue.

February brought the group together twice: first at a business meeting followed by tea for Iota juniors, second, at Iota's initiation banquet. In March the current officers entertained the chapter at a supper meeting, where new officers were elected.

The April meeting will be an evening one with convention as the theme. In May, a luncheon will be given for Iota's seniors. The year will close with the usual breakfast given for returning Thetas, seniors and their parents, on the Sunday before Commencement.

ELINORE GIBBS BRUECKNER

**DENVER  
ALUMNÆ**

You've heard a great deal about balancing the budget, but here's a scheme congress would never think of. Denver alumnæ are carrying on two bridge tournaments—one for Thetas only and one for Thetas and their husbands. People don't seem to mind spending money for bridge, for a large number are playing in the tournaments. It is lots of fun to meet the Theta husbands, and everyone reports a jolly time.

MARY HUNTER

**LANSING  
ALUMNÆ**

Activities in Lansing alumnæ have gone on much the same as usual this year although the membership has been smaller. Dinners at the homes have brought out an average of twenty-five Thetas. There have been no formal programs, but at one meeting a member gave a travel talk, at another questions on Theta history were answered, and at all we talked and sang. At our December meeting we entertained the pledges, officers, and house mother of Beta Pi chapter. An indoor track meet was a great mixer and much latent talent was uncovered. The Founders'-day dinner with Mrs Banta as guest was the outstanding social event of the year. In May we will entertain the Beta Pi seniors at a breakfast, which is an annual event.

We have done a little Social service work, but as most of us are allied with other organizations, which specialize in service, we have not stressed that side. We are putting our efforts into swelling the Beta Pi house fund and helping raise a loan fund for Michigan State senior girls, a project sponsored by Lansing Panhellenic.

LENORA VAN HALTEREN

**MILWAUKEE  
ALUMNÆ**

March 19 was a red letter day for Milwaukee Thetas when they gathered for luncheon at Helen Alder Creager's, Kappa, to honor our Grand president, Mrs Banta, and Mrs Alexander Ruthven, Eta,

who was in our city with President Ruthven attending a Michigan alumni gathering. In an inspiring talk Mrs Banta gave us that sense of unity with other Theta workers, so essential to the vitality of an alumnæ chapter. Mrs Ruthven in her own gracious manner brought us greetings from Ann Arbor Thetas.

Milwaukee Panhellenic for several years has enjoyed a spring card party. This year we are dispensing with the party and each member is giving 50 cents to continue our project of supplying funds to ten high school girls who would otherwise be unable to stay in school.

LUCIE HARMON

**NASHVILLE  
ALUMNÆ**

Fall started with a most pleasant surprise, as our District president, Miss Lydia Schuler, visited us the week-end of the Tulane university football game. Mildred Stoves, our busy president (Davidson Co. Charities Com. work) called a special Saturday night meeting and prepared a delicious fried chicken dinner. May Corbett Smith, vice-president and in charge of our educational program, gave a brief outline of the coming programs, on the theme *Women who blazed a trail*. We have had interesting programs on *Women astronomers*, *Great observatories*, *Women mathematicians*, and *Women dramatists*.

In January Dean Ada B. Stapleton was our dinner guest and gave a most interesting talk on the A.A.U.W. We celebrated Founders'-day with the college chapter as customary, but an informal evening gathering was substituted for the usual formal banquet and program.

February and March brought us interesting talks on *Women poets*, *Women lawyers* and an amusing mock trial which centered around our most loyal and ever helpful Stella Vaughn and included certain Vanderbilt campus celebrities.

Not as many Thetas have attended meetings this year, due partly to conflicting engagements and possibly the depression, but

we hope that the coming year will bring back the old members as well as new ones.

## OKLAHOMA CITY ALUMNÆ

We introduced this year a pleasing innovation.

The regular business of the chapter is carried on by officers and committee heads in sessions called by the president between the regular monthly meetings of the chapter. Then each monthly gathering had some special entertainment feature, particular effort being made toward variety as well as interest.

September: a registration tea at a home, hostesses being the officers: special entertainment was a play reading, *The Barrets of Wimpole street*. At this meeting dues were accepted and the year-book given to all present. October: a bridge luncheon.

November: a tea at the Oklahoma club honoring Theta Mothers, with a group of tableaux in which the mother theme predominated, and a synopsis given of the artist's life, time, meaning, and value of the picture. Pictures posed were Raphael's *Madonna of the chair*, *Madame LeBrun and her daughter*, and *Whistler's Mother*. A musical background of appropriate selections—voice and instrumental—accompanied each picture, and the whole done by Thetas and children of Thetas.

December: a luncheon at a member's home, where we sang Christmas Carols, had a screening of pictures of the Holy Land taken by one of our much traveled members, and wrapped Christmas presents—pretty Balbriggan pajamas—for the girls at the Crippled children's hospital.

January: following luncheon at a member's home we proceeded to *The Elms*, charming studio of Nan Sheets, an Oklahoma City artist of note, where we enjoyed a talk on art in relation to our everyday life; viewed some interesting paintings, and were served tea from a huge Russian samovar.

January also found one hundred and twenty-five of us assembled at the handsome

new Y.W.C.A. building, in a private banquet hall for the Founders'-day celebration. As guest of honor we were happy to have Mrs Wright, Grand vice-president. A well rehearsed chorus led the singing of the Processional, and other favorite Theta songs. The lighting of the four candles in memory of the Founders was followed by a skit by Alpha Omicron, and an inspirational talk by Mrs Wright. The banquet closed with the singing of the Recessional.

February: a luncheon with Norman alumnae as special guests, the interesting feature a book review and talk by our own brilliant Lucia Loomis Ferguson (Mrs Walter) Alpha Omicron, late of Oklahoma City alumnae, now of Tulsa. Mrs Ferguson's syndicated articles *A woman's viewpoint* appear each day in the Scripps-Howard papers. Her rich humor and understanding heart are a joy to her many admirers.

March: the only chapter business meeting of the year, following luncheon came reports from all officers and committees, and election of new officers. At this meeting also, the lucky member was drawn for previously sold chances on a lovely satin quilt. The tickets sold for twenty-five cents each and the net amount realized was \$65.

The yearbook has slated for April a luncheon, a playlet, and an old fashioned spelldown on the chapter roll. Also, an evening party for husbands, brothers and beaux. For May, the last regular meeting, at Alpha Omicron's house at Norman with Norman alumnae as hostesses, and the seniors of Alpha Omicron honored in Senior recognition service, with a group picture taken in front of the house.

This series of widely diversified programs gave us more pleasure than the old way; besides we found cabinet meetings a more expedient system. Only when something very special came up was business introduced at chapter meetings.

We did not make the usual financial gift to the two college chapters of the state during fall rush; nor did we present them the usual birthday gifts at Founders'-day banquet. What money we were able to raise this year

went to local charities and to the Loan and fellowship fund.

MARY M. SHAW

## OMAHA ALUMNÆ

Omaha alumnæ's meeting October 6 started the year off with a bang, as there was a good attendance, and every one was enthusiastic. Last year Grand council designated Omaha alumnæ to compile a new *Theta song-book*. After hard work on the part of the committee to which this was assigned, and with the cooperation of the chapter as a whole on contacting the college chapters, the book was finally compiled. Grand council allotted \$100 for prizes for the best new songs. At this first Fall meeting, the prizes, and the chapters turning in the best songs for the *New song book*, were announced. First prize \$50, was given Beta Tau; second prize, \$35 went to Kappa; third prize, \$15, went to Alpha Tau.

Lincoln and Omaha alumnæ chapters are cooperating with Rho to improve rushing technic. A committee of Omaha alumnæ are getting acquainted with Omaha girls who plan to enter Nebraska next year.

November 3, Mrs. Carroll, District president, came to our meeting and led a discussion on rushing and conditions at Nebraska. She was able to clear up many questions in our minds, and give us helpful suggestions.

December 5, members of Rho's advisory board, Alice Towne Deweese, Gertrude Laws Hardy, and Mary Helen Allensworth brought us the latest news of Rho and discussed with us our part in rushing. We enjoyed meeting these delightful women, and getting their views.

At several meetings preceding Christmas, we made red stockings for the Creche Home, an Omaha home for homeless children. These stockings we filled with candies, fruits and nuts, and donated toys. For several years Omaha alumnæ has taken care of the Creche children at Christmas.

February 13, we had our Founders'-day luncheon at the Trinity Cathedral Parish house, with fifty-eight present and Mrs Purd

Wright, Grand vice-president, as guest of honor. Mrs Wright gave us a superb talk on *How alumnæ can show their loyalty to our fraternity*. We enjoyed meeting and becoming better acquainted with her.

In December the alumnæ entertained at a bridge party for their husbands, at the home of Rachel Metcalfe Phelps (Mrs E. J.), the first party of this kind we have had in two years, and everyone was heartily in favor of having more of these and oftener. Both contract and auction were enjoyed, and a ping pong table by those who indulged in neither bridge game. About sixty people were present.

## PASADENA ALUMNÆ

With poised, golden-haired Martha Williams as president, Los Angeles alumnæ is coming through a difficult year with fine equilibrium. 1931-32 has seen the creation of a drama section under Betty Clauss and Lois McCrea Ramsay. The group visited the studio of Max Factor, make-up king of movie town, then a puppet show, then a matinee and luncheon at the Pasadena Community theater, meeting the players of Noel Coward's new play *The young idea* in the green room.

This year has seen also the growth of the garden group under the leadership of Dorothy Davis Conant. They were invited to the altogether lovely home and garden of Helen Ayres, and to Mrs Frederick's garden of rare begonias and other shade loving plants.

Monthly meetings included many supper parties, one at Omicron's house, and afternoon bridge parties, one in the evening for husbands. Much admired Dora Heffner told us of the Florence Crittenden home and inspired us to take an active interest in its progress.

There are three affairs still on the calendar, a dinner party at Beta Xi's house, the June picnic, and a large benefit bridge to enable us to make gifts to our two college chapters.

This sounds like the regulation enthusiastic chapter report but in no way unique. Have we nothing original to offer? Indeed yes: let me present the Theta tea with Cheiro, planned and executed by Lucy Fitzgerald. In a royal estate in Bel Air is a home whose focal point of interest is its Persian rugs, many of them museum pieces. At this home one early spring afternoon were gathered many Thetas to hear the celebrated Cheiro, a French baron of great charm and learning, who is a reader of hands. He finds unfathomable secrets in them. He brought out every bit of gypsy blood in his listeners, and soon had us tearing off gloves to try and decipher the lines of our own hands. Later, in a flagstoned patio before an open fireplace, a beautiful tea was served. And what of this afternoon of tea, music, and palmistry? Just this, one hundred and fifty dollars to benefit Kappa Alpha Theta Loan and fellowship fund!

#### PORTLAND ALUMNÆ

Portland alumnae has continued alternate pot-luck supper and afternoon meetings with fine attendance.

Most of the fall meetings were lively with plans for our annual bazaar, which cleared \$150 early in December. This money we sent to the Doernbecher Children's hospital, where for some years we have endowed a bed. We also gave \$50 to the Scholarship fund.

At Christmas time we shared in the city-wide campaign to help those in need, by providing baskets of food and toys for several families, and have since aided another, of whose distress we heard.

In addition to these activities, a White elephant sale proved profitable, and we recently added to our treasury by selling tickets for *The streets of New York*, presented at the Civic theater by a group in which several Theta alumnae are interested. At our last meeting we completed plans for a further financial harvest, a luncheon and movie benefit the last of April. At the meeting where

the plan was proposed, all twenty-five tables available were reserved, and this promises to be a popular entertainment for Thetas and their friends as well as a good financial opportunity—for the chapter receives half the proceeds.

As a delightful ending to the year, the chapter plans to entertain the two college chapters, Alpha Xi and Beta Epsilon, with a June picnic at the home of Alice Jones McVay (Mrs W. H.) near Lake Oswego.

#### PROVIDENCE ALUMNÆ

Four meetings have been held this season at which we have read and discussed the Fall and Winter *Bimonthlies* and the alumnae questionnaire. We have been pleased to receive letters from and verbal accounts concerning several former Alpha Epsilon members now living outside Rhode Island. As a Founders'-day celebration, fifteen members enjoyed a supper at Alumnae hall, Pembroke college, at which time a collection for the Friendship fund was taken.

Lillian Gamwell Moulton (Mrs David P.) has two sons at Princeton; David Scott in the junior class and William Gamwell in the freshman.

Ella Pollard McIntyre (Mrs George F.) has a daughter, Eleanor, in the freshman class of the University of Wisconsin.

Irene Seabury Cummings (Mrs Frank A.) and Otilie Metzger Taber (Mrs Norman S.) served as team captains in the Providence, R.I. Community fund drive.

Josephine Sackett Johannson (Mrs Karl) is president of the Brown alumnae club of Pittsburgh, Pa.

#### RENO ALUMNÆ

Once more it is time to look back and wonder what has become of last year's hopes and plans. We see our first plan achieved—a series of monthly dinner-party meetings—Thetas gathered together again, and working for a common cause in a world of varied interests and ambitions. So varied have these interests become after college, that many of

us never see each other except on these happy occasions. The average attendance is eighteen out of an active membership of twenty; seventeen of whom are Beta Mu alumnæ, one Omega, one Phi, and one Iota.

We feel that we have had a year of successful cooperation with the college chapter, Beta Mu, with a Presentation tea for the pledges, a Christmas party, the Founders'-day banquet, and a most successful Piano concert directed by Florence Billingham—successful not only from our point of view, but one of the best ever given in Reno. Plans are now under way for an organized campaign to aid the college chapter in securing and compiling names of prospective Thetas.

January brought us a visitor—Mrs Bligh Grasett, Grand treasurer. Our only regret was that her visit could not have been longer, for the brief glimpse of her charming personality and the valued information we received made us most anxious to know her better and longer.

Now we look ahead to see before us Grand convention at Estes Park, Colorado. May it be a huge success not only to the fraternity as a whole, but to each individual chapter, and to any and all Thetas having an opportunity to be there.

DOROTHY WARD HINCKLEY

## ST. LOUIS ALUMNÆ

St Louis alumnæ has listed 232 Thetas and wishes it could list others scattered about the vicinity. We have a fraction better than a third of the college chapters represented, which shows that Thetas are gregarious. We must get together; we are Thetas.

Our meetings have been well worth while and enjoyable. We have had talks, parties, book reviews, and have entertained each class of the college chapter.

We have done our bit in charity. We have an active philanthropy committee interested in Big Sister organization, Provident association, and the Visiting nurses.

Our greatest joy was entertaining Grand council during National Panhellenic congress. We pride ourselves too on the fact that Lucy

Richardson is president of the city Panhellenic and directed the local plans for the congress. We were more than glad of the time given us in which to entertain our guests. To those who had never seen a Grand council in real life it was awe inspiring as well as thrilling. For many it was a renewal of old acquaintance and friendship. The words of greeting from Mrs Banta left us all determined to carry on in true Theta spirit and with true Theta ideals.

The high point in a Theta's life comes in the thrill of attending her first convention and seeing the actual living spirit in hundreds of hearts. We rejoice that it is to be in the middle west and hope to meet many new faces and see many familiar ones again.

## SAN DIEGO ALUMNÆ

We have been quite successful this year in the sale of Theta bookplates, proceeds of which go to the Loan and fellowship fund.

Our March meeting was in the evening at the home of Mrs Paul Edwards. We were pleased to have Mrs Ada Laughlin, our District president (and sister-in-law of Mrs Edwards) with us that evening.

The chapter is planning several rush parties during the summer months.

We are glad to welcome Janet Crozier home. Janet has been in the Desert Sanitarium at Tucson, Arizona, for nearly two years.

## SAN FRANCISCO ALUMNÆ

The March meeting of San Francisco alumnæ was a supper at Mrs Ralph H. Lehman's delightful home in St. Francis Wood, San Francisco. After supper those present gathered around the fireside to hear Mrs H. S. Moore review Carol Green Wilson's book, *Chinatown quest*.

On the afternoon of April 12, San Mateo and Burlingame residents of San Francisco

alumnae will be hostesses at a bridge-tea at the home of Mrs Walter Holt in Hillsborough. The last meeting will be in May, a supper at the home of Carol Green Wilson, when election and installation of officers will take place.

San Francisco alumnae are looking forward to convention and making plans for its exhibit, as well as other active participation in the great gathering at Estes Park in June.

## SEATTLE ALUMNÆ

Seattle alumnae has spent an enjoyable year under the leadership of its gracious president, Josephine Meissner Quigley (Mrs A. J.). Alternating evening and afternoon meetings has continued in popular favor.

In November the Edmund Meany hotel was opened in the University district, and the following week-end the alumnae had one ballroom for a dance. All Thetas and their friends were invited and we earned eighty dollars.

Our "Taxi money" (street car fare collected at each meeting from those who come with some one in a car) has helped inaugurate our Sunshine committee, composed of two members who make a special effort to find those who are in need. At each meeting we bring food and extra pennies to swell the fund for the Sunshine committee.

Our biggest fun and money raising scheme has been district bridge parties, which started friendships in a city of many alumnae. It was arranged that each district have six contract bridge parties, all on the same dates, with a quarter collected from each alumna who attended. Scores were kept and the two high ladies from each district will play in a final tournament next month. Thus we have met and enjoyed Thetas who do not always attend the meetings.

We are happy to have Betty Robb chosen as president of District IX.

## SPOKANE ALUMNÆ

To begin the year, Spokane alumnae took an unusually active part in the rushing program sponsored by Alpha Sigma. A tea financed by the alumnae at the lovely home of Mrs J. S. McNair on Overbluff came first; then an informal dinner at the cottage of Mrs J. H. Thomson on Newman lake; and last a formal dinner at the Spokane Country club.

Realizing that it would be almost impossible to make the usual quota on a rummage sale, a costume party was given on Halloween, to which were invited our friends at 75 cents a couple. The party was successful socially, as well as financially; \$30 was cleared. The rummage sale, the next week, added \$42 to the treasury.

Our philanthropy has included sewing quilts at meetings and serving at the relief depot. At Christmas time \$15 was donated for the milk fund of the local relief organization.

During Christmas vacation the girls home from college were entertained at tea at the home of Josephine Porter. A most delightful program was given by Marion Guilbert, mezzo-soprano, assisted by Phyllis Benefiel, pianist, and Ellen Margaret Gandy, dramatic reader.

To honor Founders'-day, we had a tea in place of the annual formal dinner. For the program, the chapter enjoyed the unusual opportunity of listening to Marian Nickey Heath (Mrs Sylvester) the thirty-fifth initiate of Alpha chapter, who spoke on pioneer days in Theta. Birthday pennies netted \$7 for the Friendship fund.

In February, the Loan and fellowship fund was sent the usual donation of \$100, plus \$5 which was a gracious gift of Mrs Heath on Founders'-day.

With an entertainment for husbands and beaux, which last year was a bridge and dancing party at the Country club, the chapter will close its program.

**TACOMA ALUMNÆ**

Even *alumnæ* chapters have heard of Depression. Tacoma chapter felt it early in the fall when several members dropped out because of heavy demands on the family pocketbooks. The remaining members made adjustments to meet the emergency. The annual dues were cut to the minimum; dessert luncheons were substituted for more elaborate course luncheons of other years; and several monthly meetings were devoted to assisting charitable organizations.

In November a silver tea was given at the beautiful home of Mrs Staatz. We enjoyed this so much we were pleased to find it was also a financial success. The money was added to the city milk fund. At Christmas we all contributed canned goods which were given to a charitable organization for distribution.

Founders'-day was celebrated informally at our regular meeting with a songfest of Theta songs. Later we joined Seattle Thetas at their formal dinner celebration.

One meeting each year we devote to book reviews; we continued them over two meetings this year, as they proved so delightful.

And soon it will be picnic time again. Last year we invited Seattle Thetas to join us and when we all got together it sounded like a class reunion. The girls home from the college chapters are also invited, so it is quite an event and we all anticipate the fun.

So in spite of old depression the Tacoma chapter has had an enjoyable year and still done something for those in need of assistance.

**TULSA ALUMNÆ**

Monthly meetings and programs are planned in advance. Each member receives her yearbook at the September meeting. This booklet contains date, place, and subject of every meeting.

In September two rush parties, a tea and a breakfast, were given for girls leaving for college. In October, Mrs Walter Ferguson gave a most interesting review of *Adam's rib*. November, an enlightening paper on

*Art moderne* was presented, and there was a jam and jelly shower, the packages to be sent Beta Zeta and Alpha Omicron for Christmas. December, the annual Christmas party, at which time we contributed funds for a Christmas basket for a needy family.

April, we will have a book review; May, a buffet supper and bridge; and in June, the last meeting, a garden party.

Our second Founders'-day banquet was at the Tulsa club with sixty present. Many *alumnæ* from Stillwater and undergraduate members of Beta Zeta were present. Mrs Wright, Grand vice-president, and Mrs Carroll, president of District V, were our honor guests.

**WASHINGTON ALUMNÆ**

The season opened auspiciously with a delightful supper in October at the home of Mrs Mary Osgood Taylor. At this time we concentrated on getting in touch with Thetas new in the city, enlisting their interest in the chapter, and making the occasion a festive one. At this meeting there were many new Thetas present. The chapter warmly welcomed home Mrs. Katharine Seelye Wallace recently returned from China where she had spent almost three years, during which time her husband, Dr Wallace, had been with the Kemmerer mission, and subsequently acted as special financial adviser to the Chinese government.

While Washington chapter varies its meetings by alternating afternoon and evening ones, its best attended gathering were those in the evening, with the exception of the Founders'-day luncheon which has been reported in a previous issue.

A dinner dance celebrated the Christmas season for Thetas, at the Kenwood country club, where our colors were prominently displayed in the decoration scheme, as well as a huge kite at one end of the room, suspended from the ceiling, and an equally huge coat of arms, at the other. Many Thetas dined and danced at this gay Christmas gathering.

The February meeting was noteworthy because Mrs Wallace spoke on her experi-

ences in China, giving also a critical analysis of the Sino-Japanese situation.

In March we were entertained by Mrs Alice Carleton Meyers at a charming dance and supper given in her picturesque, colonial home in Georgetown, Washington's oldest and most historic section. It is a real opportunity to accept the gracious hospitality of Mrs Meyers and the occasion was a happy one.

April 16 we look forward to replenishing our local treasury by a benefit bridge which is becoming an annual event. This year Mrs Helen Chamberlain Buxton has kindly offered her house.

Our activities have not been altogether social, however, important and enjoyable that end of fraternity association is, because we have again done social service work through Mrs Roland Davies who is our Social service representative. Mrs Davies visits and does case work among poor families in Washington, and through the Associated charities has made the arrangement by which our chapter supplies milk daily to a family, that consists of parents and two children, who are fighting tuberculosis.

The Washington chapter maintains its active support of the Friendship and Loan and fellowship funds, which this year, more than most appeal to our sympathy, in the need for help that there is in the world.

We feel particularly fortunate in having Eilene Galloway as our president this year. The successful activities of the chapter have been due largely to her efforts and interest spent in Theta causes. We are glad to have her go as our delegate to convention.

ELIZABETH W. JACKSON

*The National geographic magazine* for March 1932 features an article by Cornelia Stratton Parker, Omega, *Entering the front doors of medieval towns*. It is the story of the adventures of an American woman and her daughter (Mrs Parker and her daughter, June) in a folding boat on eight rivers of Germany and Austria.

## PLACES FOR THE SHORT-DAY WORKER

The Bureau of part-time work, founded to utilize the abilities of trained women who desire to work on a short-hour schedule, has just completed ten years of usefulness, during which it has demonstrated that the short day is feasible in many fields of work. It has found part-time positions for 15,277 women, including teachers, secretaries, social-service workers, specialists in various branches of hospital work and clerks. College graduates have been sent out as educational advisers and assistants in vocational guidance.

During the first year placement efforts were confined to professional and trained women, but recently they were extended to include all types of home work.

The bureau began to function against difficult odds at a time when part-time work was looked upon with skepticism by the majority of employers. Since then labor organizations, employers and economists have increasingly endorsed the short day and the five-day week for both men and women. The bureau is no longer obliged to fight prejudice; it finds that employers in all fields freely seek its service.

Miss Eleanor Adler, executive director, founded the bureau after discovering, by personal experience, the odds against the woman seeking short-day work. Few employers were sympathetic, and those who had positions to offer had no agency through which they could register their calls.

The bureau filled its first position in January, 1922; in November of the same year a branch was opened in Philadelphia. Yet progress was slow. Whereas women were quick to realize the importance of the project, employers had to be educated to it. In the first year 2,374 women registered, while only 691 employers called for workers and 521 employes were placed. In 1929, the bureau's banner year, there were 2,776 registrations, 2,810 calls and 2,543 placements.

As was to be expected, the next two years showed a considerable falling off; yet in 1931 there were 1,187 applications, 980 calls and 944 placements. The bureau's idea, indeed, gained ground, for during these times of unemployment many business men have found it possible to retain some of their workers on a part-time basis.

The organization, which has its office at 105 West Fortieth st. is non-profitmaking. There is no charge to employers for service. Applicants give one week's salary for a position lasting more than two months. The income derived from this source is not sufficient to support the bureau, which is partly dependent on private contributions.

The part-time day is, in reality, a short day. It is generally five hours long; popular work periods are from 9 to 1, 1 to 5 and from 10 to 3. Salaries exceed more than half what they would be for a full day. Employers have found that a part-time worker gives greater concentration to her job than if she kept at it for an entire day. Freedom for recreation, or relaxation in some other form of occupation during the hours of unemployment, keeps her more fit for her work, many maintain.

The short-day job fills the needs of various types of women—those who are physically unable to stand the strain of an eight-hour day, those wishing to supplement their incomes with modest earnings married women whose household duties are not sufficiently heavy to require their whole attention, and others who have several leisure hours a day which they wish to devote to some constructive activity.

One of the most important accomplishments of the bureau, Miss Adler feels, has to do with married women who had business or professional interests before taking up family responsibilities. Part-time work enables them to keep a close grip on their former interests, so that they can re-enter their fields of activity when home and children no longer make heavy demands upon their time.

Delta held its position of first in scholarship on Illinois campus again last semester. This is the second consecutive semester Theta has been first in scholarship. The house average was 3.8, or almost straight B. The nearest competitor was 3.6. Alpha Lambda

Delta, honorary fraternity for freshmen women with a 4.5 average, has three Thetas in it—Helen Russell, Virginia Savage, and Jean Koehler. Phi Beta Kappa recently elected Margaret Stults. Mr and Mrs Jacob Zeitlin (Lois Green) have returned to Urbana after an eighteen months' sojourn in Europe, during which they visited in Germany, Austria, Holland, spent a winter in Paris, a spring in Spain and Portugal, and summer in England.

Margaret Guild returned to Chicago last fall, after traveling through Spain and Portugal with her parents Professor and Mrs Zeitlin. Margaret is assistant secretary in the Illinois state aeronautic commission located in the Tower building, Michigan av. Chicago. She is enthusiastic about the work and its numerous branches, giving various openings in aeronautical field for women, as something new and desirable for women.

Stella Marshall Bogart (Mrs Earnest) returned to us this fall after a year's study of painting in Paris, and gave a delightful exhibit of her work.

## ETA Michigan

March was a busy month. First came initiation for Mary Stirling, Betty Little, Jean Vorheis and Jane Irwin of Detroit; Roxane Neal and Ann Mitchel of Ann Arbor; Laura Jean Kempf, Fremont; Jane Mahon (sister of Estella) Port Huron; Venita Cook, Birmingham. The banquet was especially

gay due, no doubt, to the charm and wit of Mrs Diekema, toastmistress. We fairly glowed with pride when Virginia Watson was awarded the scholarship ring, having made a record of eleven hours of A the previous semester—an achievement in itself—but remarkable when carrying such subjects as bacteriology and physics. We were greatly cheered when it was announced that the alumnæ were giving us money with which to buy five new beds—oh, to be one of the lucky five! The peak of the evening was reached at the unique and side splitting interpretation of the *Wreck of the Hesperus* given by the initiates.

We have an actress in our midst, as was evident when Ruth Stesel played the leading rôle in *Anthony and Anna* put on by Comedy club. Venita Cook was recently admitted to Comedy club, too.

Formal activities were brought to a close with the pledging of Betty Jane Taylor of Detroit.

#### RUTH HICKMAN

#### IOTA Cornell

February 27 Iota initiated Barbara Canby, Downingtown, Pennsylvania; Mary Geib, Altoona, Pennsylvania; Margaret Hushion, Yonkers; Constance Kent, Swarthmore, Pennsylvania; Frances Lauman, Ithaca; Caryl Mance, Rockhill, South Carolina; Charlotte Mangan, Angola; Ruth Ryerson, Brooklyn; Eleanor Stager and Elizabeth Williams, Norwich; and Virginia Yoder, Watertown. The next night Virginia Merritt, who transferred last year from Alpha Beta, was affiliated.

We are proud to announce the pledging of Mary Hardigan of Norwich. Mary came to Cornell this semester from Wellesley. And it certainly does seem good to have Constance Boyesen back after a term's absence.

We miss Olive Espenschied who graduated in February, and Virginia Mayo who is attending college at her home in Charleston, South Carolina, this semester.

As a result of W.S.G.A. elections March 29, Helen Burritt is next year's Chairman of organized groups on W.S.G.A. Council, and Ruth Carman will be president of Unit 1 of Balch halls, the sophomore-senior dormitory. At the same meeting Helen Burritt and Harriet McNinch were elected to Mortar board.

Wilhelmina Slaght has been admitted to the Women's debate club, and the Dramatic club has elected Ruth Carman and Ellen Cook to associate membership. In the club's last production, *Berkeley Square*, Cornelia Morse and Ellen Cook had parts, Cornelia playing the leading feminine rôle. Helen Burritt, Barbara Canby, Frances Lauman, Ruth Ryerson, and Adelaide Wright were working backstage, and Ruth Carman played in the club orchestra. Harriet McNinch coached a short play broadcast by the Kermis club over Station WEAI, Cornell university radio station. She has been giving a fifteen minute Home economics broadcast twice a week since the beginning of the year, and is known on the air as "Deborah Domecon."

Virginia Yoder and Frances Lauman made freshman fencing squad. Helen Burritt was appointed manager of intramural basketball, and Mildred Strohsahl, assistant-manager.

We have had another informal dance, this time just for girls living in the chapter house. We are now looking forward to our spring formal and faculty tea, both to be some time next month. And in the meantime the campus is assuming a deserted appearance as the last of the students leave for spring recess.

#### OMICRON So. California

Touch - me - not shoulders, red noses, burned backs, together with Dorothy Edmonds wearing a new tan, are the results of Omicron's taking advantage of Easter week vacation and transplanting the chapter house to Balboa, for a glorious week of swimming, yachting, dancing, and lolling on the beach. March 28 brought back to college a group of sun-burned maidens in every sense.

Turning from our most recent happening to those since the last letter, we have twelve new members—initiated March 6—namely, Lois Allan, Marjorie Bailie, Marthaellen Broomfield, Margaret Chase, Dorothy Clark, Frances Elfendahl, Margaret McComas, Peggy Phillips, Betty Mae Philp, Helen Tucker, Vivian Stevens, Jane Weinrich. Peggy Phillips received the scholarship pin for the highest initiation average, 2.5.

Following winter rushing we are happy to announce the pledging of Genevieve Baird (sister of Stuart) Mary Louise Boulle, Caroline Ferry, Margaret Wirsching.

We have much to be proud of in the way of scholarship this year: Hazle Redfield made Phi Kappa Phi, and Florence Tyler had her name placed on the scholarship cup for making a 2.6 average.

Ethel Redfield and Betty Gildner, who is pledged to Pi Kappa Sigma, have been appointed to Amazon, women's society for the enforcement of freshman women's traditions.

## SIGMA Toronto

We were all delighted that Mrs Banta was able to stop in Toronto after the McGill installation and attend our chapter meeting. She gave us some helpful advice and assistance with chapter difficulties, and we shall remember her visit for many months.

Sir Robert Falconer, President of the University of Toronto, who is retiring at the end of his year, gave his farewell address in Convocation hall before an assembly of undergraduates.

Three Sigmas of the college chapter went down to Montreal for the installation of Beta Psi. Hasel Hammond, delegate, was accompanied by Maureen Macoun and Primrose McLean. The graduates were well represented and took charge of the banquet, Adelaide Sinclair acting as toastmistress.

Hasel Hammond gave a paper on *Recent Shakespeare commentary* at an anomalous society, and Isabel Jordan is giving the next paper on *Aldous Huxley*.

After our final meeting next week the juniors are giving the traditional party to the graduating year.

## UPSILON Minnesota

Intensive and cooperative "jacking up" of the chapter in an effort to raise its scholarship has been going on. A program of study hours, and a supervised study hall at the house were tried. They worked successfully enough to be continued.

An informal party was given March 4 at the house in honor of the eleven girls initiated February 29: Jean Short, Mary Lou Randall, Jane Lathrop, St. Paul; Mary Flor, Maxine Sorensen, Eleanor Dahn, Betty Rieger, Katherine Anderson, Minneapolis; Virginia Somerville, Kansas City, Missouri;

Jeannette Gagnon, Huron, South Dakota; Laverne Meadows, Carrington, North Dakota.

Kappa Alpha Theta was cited for special favor by the University players because it had been represented by the largest group of pledges in the chorus of *Julius Caesar*. A bloc of complimentary tickets was presented the chapter.

Theta had charge of the "dog racing" booth at the annual "Penny carnival" given by the Women's athletic association. Elsa Hoidale was in charge, assisted by Mary Flor, Ardine Berg, Maxine Sorensen and Laverne Meadows.

Out of a frank admission that our chapter singing could be improved has grown a new office, a new requirement, and a new and hopeful quartette. Ellen Hulbert, major in the school of music, is chairman of the song committee. Ellen made it a rule that the chapter practice en masse fifteen minutes before every meeting, and at noons before rushing. The results were gratifying. At the last of rushing week our guests went so far as to ask; "When are the girls going to sing?" Lately, Ellen decided to organize a quartette to take the place of the far famed but unfortunately graduated quartette of two years ago. Our new songsters are: Berenice Johnson, Margaret Ellis, Elaine Godward, and Ardine Berg.

Eighth in line at the Junior ball marched Jane Shellman, of the annual staff and W.S.G.A. Meanwhile, our freshmen go in for activities. Mary Jane Torrance is the latest Theta "cub" on the *Minnesota Daily*.

## PHI Stanford

Yesterday was registration day for the spring quarter.

The grades of the chapter for winter quarter, as a whole, were excellent and the pledges who made their grades will be initiated this quarter.

The interest of the college was focussed on the January meeting of the Board of trustees, at which the question of abolishing the lower division was to be settled. The decision was that the lower division should be retained, the number of men admitted to the lower division to be increased though the number for women remains fixed at five hundred in the entire college.

The mothers of Phi girls were invited by the chapter to a tea, and after the tea they organized into a Mothers' club. As the first club activity they decided to buy the house an electric refrigerator. Mrs Lockey is president of the club.

Spring quarter rushing starts with a Panhellenic tea for all new entering women. Each group is allowed to have five representatives at this tea. Then after four days of rushing, pledge day will be April 2.

**OMEGA**

**ALPHA BETA**  
**Swarthmore** For several months Women's student government has been discussing the fraternity situation and social plans for next year. Unfortunately it was impossible to gain a decisive vote on any one of the numerous plans offered, so the problem was relegated to a representative committee to ascertain what policy should be followed. The committee has now reached a decision which meets with the approval of the fraternities as well as of the non-fraternity group. The plan stands: first, to curtail the social activities of fraternities to such things as would be most inconspicuous, retaining the privilege of one fraternity dance; second to allow no new members to be taken in next year. To fit in with this curtailment of fraternity functions, a new social calendar, involving all the women student body, is being planned and will be announced sometime after spring holiday.

March 9, Elma Hurlock entertained the chapter at her home. The delicious strawberry short-cake soon vanished and we proceeded to the election of officers.

The freshmen served a breakfast to the rest of the chapter March 20. Our only regret is that such breakfasts don't come oftener.

have distinguished themselves in social sciences.

Three sophomores were chosen for Daisy-chain: Jane Manley, Mary Sanders, and Mildred Wohnsiedler. Mildred Wohnsiedler will also have a part in the sophomore show, *Quality street*, April 23.

### ALPHA LAMBDA Washington (Seattle)

Alpha Lambda has added another member to its list of Phi Betes—Louise Stevens, elected last quarter.

Two Thetas are charter pledges of Washington's new honorary, Totem club: Clotilde Duryee and Marian Craig.

In fact, there isn't a high spot on the campus we haven't hit this last month: Mary Hemphill was elected secretary of Associated woman students, and Mary Curran activity chairman; seven Thetas are on the program for the Junior girls' vodvil; Betty Malcolm and Margaret Hemphill won the campus bridge touranment; we had more representatives on the Junior prom committee than any other house; we could undoubtedly carry off a national prize for the largest number of cases of appendicitis in any one chapter.

Bridge became popular overnight with the acquisition of our new Oriental rug, which put a stop to dancing. We might recommend this game of Culbertson's—it has that inestimable advantage of being *free* entertainment, so desirable since the—

Anyway, Spring is here, and we're hoping soon to win new laurels in tennis and swimming.

nity, dance. Mary Butterfield was elected St. Pat's queen, but never formerly crowned, due to the fact that she was kidnapped by four lawyers, traditional enemies of the engineers, and held until eleven-thirty P.M.

Our chapter regrets the loss of Louise Dallmeyer who left college, but we hope to have her back next year.

Shirley Brown has one of the leads in Workshop's spring formal play, *Hay fever*. Marjorie Kirk was one of the Field artillery Maids of honor at the Military ball, March 23. Elizabeth Neff was elected to Alpha Kappa Delta, national sociological society.

## ALPHA XI Oregon

Most momentous of the year's happenings; complete re-organization of the university by the state board of higher education. The university, the state college and three normal schools were combined into one institution on five campuses. All advanced work in science was taken from the university and given to the state college, which in turn lost its advanced courses in the fine arts; and the university's schools of architecture and music were combined with the departments of language and literature and the work from the state college into one school of fine arts. Each institution lost its own executives and went under the control of a chancellor to be chosen by the board; the university's school of journalism was completely abolished, as well as

the college's school of mines. A more complete change is hard to imagine. Nothing goes into effect until next fall, so fraternity life is much the same, except that we began to replan our college careers in view of the fact that the university will no longer be able to offer advanced work in science and journalism. Deferred pledging was mentioned by the board, but action was deferred, so there seems to be no immediate cause for alarm.

*Activities:* In the "Colonial route," all-campus dance celebrating the Washington bi-centennial, Marian Camp had charge of dance choruses, Georgia Miller was a tap-dancer, and Lucille Ostlind a "tavern-girl" dispensing refreshments—and song—to the Washingtonians. Georgia Miller and Mary Lou Muncy sold tickets for Junior Shine day.

Charlotte Eldridge took part in *Getaway*, the Westminster house play, and in two plays performed over KORE under the auspices of the *Oregon daily emerald*; Cynthia Liljeqvist and Helen Templeton took part in other radio plays. Charlotte was also chairman of the feature committee for the all-campus Carnival, April 9, and head of the Frosh Glee committee on patrons and patronesses.

Althea Peterson and Barbara Drury worked on the *Emerald* advertising staff, and in the Y.W.C.A. frosh commission; Barbara was active in a Philomeltete hobby group. Eleanor Barker and Althea Peterson were in charge of the committee on patrons and patronesses for the Easter vacation dance given by the Tonqueds (Eugene girls attending the university). Eleanor was on the committee for a special freshman election; Frances Helfrich was a member of the freshman swimming team.

Beth Ann Johnson was the speaking representative for the Heads of houses organization, and served on the Panhellenic scholarship committee. Janet Fitch was elected president of Pi Delta Phi (French honorary), and member of the College poetry society. Betty Rebec was vice-president of the German club. Marian Camp was on the entertainment committee for an all-campus waffle luncheon given by the Y.W.C.A. upperclass commis-

sion; Betsy Steiwer and Laura Drury were members of the senior cabinet of the Y.W.C.A.

### ALPHA OMEGA Pittsburgh

Following a delightful rushing season Alpha Omega pledged Helen Hoovler, Martha Cameron, Martha Schleid, Mary Esther Madden, Bernice Cassidy, Maxine Christenson, Katherine Anne Evans, Dent Stroke, Dorothy Woodruff, Janet Sleese, Burns Graham, Vivian Francis, and Sally Sanderson. Jane Walton was rushing chairman.

An unusual and clever feature of this year's rushing events was an evening at Monte Carlo. The entire downstairs of the Theta house was a replica of Monte Carlo. The floors were so highly polished they appeared to be crystal. Everywhere one looked there were beautiful large mirrors and statues. The orchestra was hidden behind an oasis of palms, and each room was flanked by palms, from which large bowls of lavender tulips and yellow daffodils peeked out unexpectedly. There was no overhead light-

ing—just little candle lamps on each little shining white table. And, of course, there was a large roulette wheel. The entire effect was so lovely I simply couldn't resist describing it. Eleanor Smith had charge of Monte Carlo.

April 1, Alpha Omega had its annual formal spring dance at the Pittsburgh Field club. It was under the direction of Christine Ruoff, and due to her capable management, was just perfect.

### BETA EPSILON Oregon State

For St. Valentine's day, the underclassmen entertained the upperclassmen with a formal dinner. The Valentine idea was carried out in the table decorations and the menu. Clever caricature place cards for the honor guests were drawn by Betty Losse, and caused quite a sensation. As every one enjoyed the affair, we have decided to do this sort of thing more often.

February 28, we had initiation for Betty Losse and Isobel Slade. February 29, we had our Founders'-day banquet. A few toasts were given by alumnae and members. Having two such important events in one week-end made it the most outstanding of the winter term.

Something just a little out of the ordinary and much fun was the Leap year buffet supper at the chapter house and a line party for the *Three musketeers*, given by National collegiate players at one of the local theaters. The girls asked the fellows and acted as the escorts throughout the evening.

Elizabeth Fletcher had entire charge of publicity and entertaining of the Midland college A Cappella choir for its appearance in Corvallis.

The horse show April 8, of Military week-end, is a big annual event. This year, we again have two of our girls, Betty Losse

and Florence Peters, entered in a number of events.

Two alumnae, Adelaide Richardson and Janet Meredith Brown, stayed a few days with us toward the end of winter term. We enjoyed their visit so much.

Most of us went home for Spring vacation, but all were glad to be back even if we did have Spring house-cleaning. The reward for our efforts is a nice, clean house, and we are all ready for the new term.

Jean Shepherd, pledge, was unable to return this term. Janet Stowell, sophomore, has returned, and Mary Stuart, graduate, has come back for a post-graduate course.

Social: Initiation banquet at the College club February 27. Alumnæ supper at the house March 16. Card party for the alumnæ at the house April 8. Spring Formal to be May 6 at the Aronimink country club.

Beta Eta freshmen have provided the chapter with a new kind of entertainment, preparing dinner for all every Monday night before meeting. This is a welcome innovation, both a convenience and a pleasure, since Thetas like to dine together, and it is not always possible to please the entire chapter with the service of one restaurant.

We have just returned from our annual house-party, held at Stone Harbor, New Jersey, with a charming coat of sunburn, all happy, save for the wish that it was all just beginning rather than ending. This week-long party of Beta Eta's has become the outstanding social gathering of the chapter during the entire college year. Not only do the undergraduates arrive in a body, but many alumnæ also come to enjoy the party.

Elaborate plans are being formulated for Beta Lambda's Founders'-day, April 29. This will be our tenth birthday, so we are looking forward with a great deal of pleasure to the festivities being planned by Elizabeth Cleveland, social chairman. During the spring Co-ed dances, we also are planning to entertain members, pledges, and their dates at an informal buffet supper. Rapid progress is being made on the annual alumnae-letter-newspaper which is sent out each local Founders'-day.

Nancy Apperson has been initiated into Kappa Delta Pi, national educational society. Jess de Bordenave is a member of the committee on senior invitations. Mamie Adams is historian of the senior class. Katherine Spratley's picture will appear in the *Colonial Echo* as sponsor for senior class.

We regret that Frances Via, pledge, had to return to her home in Norfolk, because of ill health. We expect her back next year.

Our new scholastic charts for pledges and members have brought splendid results. The semester average was about three points above the previous average, a considerable gain. The pledges, too, have been benefiting by the required study hall work.

### BETA PSI McGill

Through the help of Grand council and the untiring co-operation of Toronto alumnae chapter, Beta Psi was colonized at McGill university and installed there February 28. Installation took place at the Mount Royal hotel and was followed by a banquet. Thetagrams were read; speeches were given; and old and new Thetas mingled happily together. Beta Psi was charmed by the presence of Grand president Mrs George Banta Jr. and District president Mrs Sidman Poole. College and alumnae members from Sigma, Lambda, and Chi, made the ten little fledglings feel much at home. The following day Beta Psi entertained at tea for these delegates and for representatives from other women's fraternities here. Mrs Vaughan, Warden of the women's college, was also present. Beta Psi wishes to express its thanks for the wonderful way installation was presented to it. It is overwhelmed with the warm response it has evoked from sisters in Theta everywhere.

Perhaps Beta Psi may venture to present its members in a series of short sketches. Its president, Marguerite Bieler, manages a home and first class French honors with the

same effortless charm with which she guides Beta Psi through its difficulties. The vice-president, Naomi Jackson, cheers the chapter up in four languages; runs a boisterous German club; improvises music; and paints excellent pictures. The treasurer, Anne Byers, carries off honors in French; runs puzzling accounts; and has an uncanny ability to find lost articles. The corresponding secretary, Frances Stephens, has yearnings for scientific agriculture; is active in Junior league; and wears a monocle impartially to hockey games and symphonies. The recording secretary, Nona Schurman, studies music and dramatics; sings and plays the cello; and is a pro-Wigmanite. The house manager, Gwen Hall, works at French and German and plays at reporting for the college paper. The rushing chairman, Helen Savage, also dabbles in journalism; plays the piano with éclat; and is figuring out American history. The chaplain, Rose Stuart, is doing postgraduate work; and though of a weakness for music protests that her interests are "physics, physics, physics." The scholarship chairman, Joy Oswald, radiates sympathy and is concentrating upon becoming the chapter psychiatrist. The editor, Anne Barnes, is scrambling through honors in English and insists upon discertating on modern verse until propitiated by tea. Here then Beta Psi takes its place as a proud baby chapter.

Undergraduate loans: For information regarding undergraduate loans, and application blanks, address the corresponding secretary, Helen Pratt.

Graduate grants: For information regarding fellowships, address Washington, D.C. alumnæ chapter.

Loans are made for \$50 and larger amounts. Interest is 4 per cent payable annually. Security is required, i.e. endorsement of note by two financially responsible parties. Loans are payable within two years after the beneficiary has left college. Payments may be made in monthly installments. A personal letter explaining fully any unusual circumstances will greatly assist the committee in a prompt consideration of an application for a loan.

All checks, whether for interest, loans, or gifts to the Fund, should be made payable to Los Angeles alumnæ of Kappa Alpha Theta and sent to the Financial secretary, Miss Ray Hanna, 3718 W. 21st st. Los Angeles, Calif.

A gift to the Fund is a gift to Kappa Alpha Theta in perpetuity. It is never spent; it will come in and go out innumerable times; and its value to the present and future members and to the fraternity as a whole is incalculable.

# RECOMMENDED HOTELS

**A**LUMNÆ chapters recommend these hotels or clubs throughout the United States for the use of traveling Thetas. In these hotels a register or index of the Thetas resident in those cities is maintained, such register being available for use by fraternity guests. We trust that our members will avail themselves of the plan, will find the recommended hotels satisfactory, and the plan will bring Thetas together to their mutual satisfaction and enjoyment.

When Greece was the foremost country of the world, the distance run from the plains of Marathon to Athens was the test of greatest endurance. To the victor went the laurel wreath of victory and renown in every part of his community.

The sterling quality of Grecian stamina has been the inspiration for quality in the construction of Balfour fraternity and sorority badges. The use of only the highest type of workmanship and material permits us to maintain a definite guarantee upon our products.

Today, two thousand years later, endurance plays an all important part in the winning of laurels.
